CONTEMPORARY MORAL AND SOCIAL ISSUES:
An Introduction Through Original Fiction, Discussion, and Readings

By Thomas D. Davis

Author of Philosophy: An Introduction Through Original Fiction, Discussion, and Readings

Contemporary Moral and Social Issues is a uniquely entertaining introduction that brings ethical thought to life. It makes use of engaging, topically oriented original short fiction, together with classic and contemporary readings and editorial discussion to help students think about ethical theory and practical ethical problems. The stories include:

- “The Trainers,” where it turns out an alien race that saved humans from extinction is now raising those humans for food, using the same justifications we use with animals;
- “People of the Underground,” where people holding out against the genetically engineered “Clenes” make the preservation of “true humanity” seem of dubious value;
- “The River,” where a Westerner in an isolated outpost is faced with a steady stream of people who will die unless he makes Peter-Singer-style sacrifices to save them; and
- “The Divided States of America,” a satire in which the mid-twentieth-century United States is dividing up into four separate countries based on caricature versions of liberalism, conservatism, libertarianism, and socialism.

“THOMAS DAVIS’S BOOK IS AN ABSOLUTE JOY TO READ. His original fiction flows seamlessly into the philosophical discussions, masterfully guiding the study of ethics to where it really matters: life.”

—Mark D. White, *Professor and Chair, Department of Philosophy, College of Staten Island/CUNY*

“DAVIS HAS WRITTEN A FANTASTIC INTRODUCTION TO ETHICS TEXT. His unique blend of original fiction, clear analysis, and engaging primary sources provides a sure-fire way to get students talking and thinking about some of today’s most pressing moral issues.”

—Matt Lawrence, *Long Beach City College*
