Conference Overview

ASFA, officially formed in 1981, has been the proud host to 34 highly successful scientific conferences. Last year’s Annual Meeting in Denver had over 500 participants, including registered delegates, exhibitors and other corporate representatives. The meeting is the only one of its kind that offers a focus on apheresis medicine in both the donor and patient settings. It is a key educational and networking event for physicians, scientists, and allied health professionals in the field of apheresis medicine.

ASFA is thrilled to be partnering with WAA for the ASFA and WAA Joint Conference. WAA is an umbrella organization for national and international professional societies devoted to apheresis. This partnership promises to bring an exciting international representation to the conference!

Delegates of the ASFA and WAA Joint Conference will be divided between MD and/or PhD clinicians and scientists (39%) and allied health professionals (52%) who practice donor or therapeutic apheresis medicine. Other attendees will include regulatory professionals, corporate management, and marketing personnel (9%).
