ADVANCED PRACTITIONERS IN ONCOLOGY: MAKE AN IMPRESSION ON YOUR PROFESSION TODAY.

BECOME A MENTOR OR A MENTEE!

The APSHO Mentorship Program connects oncology APs by pairing mentors and mentees with the goal of creating opportunities to learn, share, and grow professionally. Mentors impart their expertise on mentees seeking career advice or strategies for strengthening their skill sets. Mentees have an opportunity to get career advice from mentors who understand their unique challenges as APs in oncology.

Exclusively for APSHO members, this member benefit brings together the high-quality educational resources you’ve come to expect from APSHO and our greatest asset, the experience and expertise of our members.

APSHO—a society for advanced practitioners in oncology (nurse practitioners, physician assistants, clinical nurse specialists, advanced degree nurses, and pharmacists)—now makes it easy to learn in a collaborative environment.

Gain skills for your own career development and contribute to the future of oncology advanced practitioners. The APSHO mentorship program is your opportunity to make an impression!

Set Goals and Grow Professionally
Address professional development needs specific to your career goals or current challenges.

Expand Your Network
Build a trusting relationship with an APSHO peer.

Receive Specialized Guidance
Be rewarded with valuable feedback from colleagues.

GET STARTED AND FIND YOUR MATCH
4 EASY STEPS

1. Log in
Log in to APSHO.org/Mentorship with your APSHO member login information to get started by choosing your desired role: mentor or mentee.

2. Complete your profile
Let participants get to know you and your goals better.

3. Find a match
Several potential mentors are selected for a mentee based on profile information. Then, the mentee chooses a prospective mentor from that list. If both program members agree on the match, they’ll be notified and can start connecting right away.

4. Create a custom curriculum
We understand everyone’s goals are different, so we’ve created the Connection Plan, a curriculum template and timeline you can customize with your mentorship partner.

Once you have your match, you can take advantage of enriching resources to help you make the most of your connection.

We’ve created a complete library of resources for both mentors and mentees to use.

Whether you’ve been involved in a mentorship relationship before or not, you’ll feel prepared with resources such as guides to conducting a productive meeting, tips on how to use your Connection Plan, and advice on improving your listening skills. The resource library is available at each stage of your mentorship connection.
