University of Connecticut, Schools of Medicine, Pharmacy, Dental Medicine, and Nursing

The Urban Service Track

ECBP-12-16: Increase the inclusion of core clinical prevention and population health content in health professions education.

The Urban Service Track is a unique collaboration between the University of Connecticut (UConn) Schools of Medicine, Pharmacy, Nursing, and Dental Medicine and community practitioners. The main goal of the Urban Service Track is to develop a group of health care professionals dedicated to caring for Connecticut’s urban, underserved populations and who are knowledgeable about the value of interprofessional teamwork. Each year a group of students from the four professional schools are selected and admitted into the program via an admission process specific to each school. Team members learn to solve challenging issues of health care in urban areas.
