FEATURED SPONSOR SYSTEMS

System designed & installed by Plumbers & Gasfitters UA Local 5 Training Facility for their school. Operates the water closets & plumbing labs where the plumbing lab water then returns to tank again for reuse.

System designed & installed by LIUNA at Katella High School in Orange County.
ARCSA FOUNDATION PRESENTS THE EDUCATIONAL COMPONENT OF THIS ANNUAL EVENT

The mission of the ARCSA Foundation is to promote sustainable rainwater harvesting practices to help solve potable, nonpotable, stormwater and energy challenges throughout the world.

American Rainwater Catchment Systems Association (ARCSA) hosts the EXPO portion of the Annual Conference. The mission of ARCSA is to provide resources and information on rainwater collection, promote the advancement of rainwater conservation and work with state, county and other local governmental units in promoting rainwater catchment. ARCSA’s membership consists of professionals working in city, state, and federal government, academia, manufacturers and suppliers of rainwater harvesting equipment, consultants, and other interested individuals. Membership is not limited to the United States, and we encourage all rainwater harvest professionals, practitioners and enthusiasts to join our organization.

ARCSA MEMBERSHIP BENEFITS

An ARCSA membership offers many benefits to anyone interested in rainwater harvesting. Whether you’re a professional or a backyard amateur, you’re sure to find a host of useful information in the Members Only section of the ARCSA website. Members also enjoy discounted rates to ARCSA conferences and educational workshops; a monthly e-newsletter containing Industry News, Technical Updates and Case Studies; the opportunity to attain Professional Accreditation; free job listings; project gallery listings; and access to our member directory.
