RAINWATER CATCHMENT
ACCREDITED PROFESSIONAL WORKSHOP

AUGUST 26 & 27, 2015
MONTEREY, CALIFORNIA

This two day AP-level workshop is an in-depth rainwater harvesting course required for those seeking ARCSA Accredited Professional (AP) status. This course provides attendees with knowledge for rainwater harvesting, both active and passive, design for both outdoor and in-home rainwater use, sanitation for potable uses, rules and regulations, guidelines, business management, project planning, site planning and installation, safety, system construction and maintenance. The course tuition includes a Rain Harvesting Planning Manual which has been expanded to include all of North America. Considering the water crisis in California, we will focus on the current drought conditions and regional regulations.
