Welcome to the American Real Estate Society

35th Annual Meeting
JW Marriott Camelback Inn Resort & Spa
Paradise Valley (Scottsdale/Phoenix), Arizona
April 9-13, 2019
April 9, 2019

Dear ARES Meeting Attendees:

It is my pleasure to welcome all of you, on behalf of the entire American Real Estate Society (ARES), to our 35th Annual Meeting at the desert oasis of Paradise Valley, Arizona -- the stunning JW Marriott Camelback Inn. Per usual, there will be new scholarship, practitioner meetings, networking, and fun followed by more scholarship, practitioner meetings, networking, and fun ………and finally, the survivor’s party.

Things will be a bit different this year, however, as we continue to transition to a new generation of leadership. We have been making great progress, and I personally want to thank David Funk (Executive Director) and Louise and Bennie Waller (Meeting Planners) as they have risen to every operational challenge. Additionally, I highly commend Simon Stevenson for all of his efforts as Program Chair. Nice work Simon; we look forward to years of your leadership.

All of that said, ARES stands on the shoulders of giants that came before us building something out of nothing. Steve Pyhrr, Art Schwartz, Joe Albert, Stephen E. Roulac, Chris Manning, Joe Lipscomb, Glenn Muller and scores of others (my apologies for omissions) that laid the foundation on which we now stand. Representing the current membership, I extend a heartfelt thanks to all that have come before. We are where we are in great part due to all your collective efforts.

As I have mentioned in the past, our time is now. The new environment of impact, engagement, and innovation from AACSB and the Carnegie Engagement classification are combining to bring real estate to the forefront within the academy, and we are just the folks to help Deans and Presidents thrive in this new setting. However, some legacy issues exist that we need to address in terms of academic awareness (citations, journal rankings, etc.) and time is of the essence.

At this year’s meeting, among other issues, we will address the topic of open access for our journals, where open access is defined as blind peer review with immediate access to articles by all upon acceptance. Additionally, we will not change our longstanding policy of zero submission fee, and ARES will never charge a publication fee. Thus, please come prepared to discuss this (and other related issues) with ARES Board members and in the general business meeting. It is very important that we come away from this year’s annual meeting with clear action items to increase our society’s presence at all levels – academic, industry, policy, consumer, and media.

I would also like to take this opportunity to continue the drumbeat of my personal goals for the society. In no certain order of importance, they are:

• Promote efforts to make ARES a recognized center of real estate expertise.
• Promote efforts to establish additional revenue streams for ARES so as to diversify away from our dependence on membership dues and conference attendance.
• Promote efforts to trend the ARES Board and Executive Committee toward policy development and oversight and away from operational matters.
• Promote efforts to trend the ARES Executive Director toward operations and away from policy development and oversight.

My gray hairs seem now to be increasing exponentially, but everyone is worth it. I love you all and look forward to seeing everyone in Arizona.

Regards,

Ken H. Johnson, Ph.D.
ARES President

**NOTE:** Term of office is July 1st thru June 30th of each year.
The ARES Foundation was created by the ARES Board of Directors in 1986 and was renamed in honor of founder James R. Webb in 2009. Currently, the primary activity of the Foundation is the funding of over forty PhD students to attend the Doctoral Seminar at the ARES Annual Meeting. ARES Foundation grants and prizes have helped hundreds of scholars. The Foundation has an endowment but it needs your support to fully fund its current and future activities.

The ARES Foundation has its own corporate charter, bank accounts, and investments. Because stability, continuity, and a working knowledge of ARES are of critical importance in the governance of the Foundation, the Board of Directors consists of past presidents of ARES who serve on the Foundation Board. Within the Foundation Board, the important four person investment committee consists of Glenn Mueller, Joseph Lipscomb, Chris Manning and Arthur L. Schwartz, Jr. Joseph Lipscomb serves as Treasurer of the Foundation, David M. Harrison is Director of Development, Joe Albert is Secretary, Elaine Wozrza coordinates the Doctoral Seminar and Graeme Newell and John Williams are Co - International Liaisons. Mo Rodriguez serves as Executive Director. The Foundation Board holds its annual meeting in conjunction with the ARES meeting each year. The Officers and Board of the Foundation are dedicated to vigorously pursuing the Foundation's educational mission as set forth by our founder, James R. Webb. All Officers and Directors are unpaid volunteers and the Foundation's overhead is very low.

When the ARES Board created the Foundation, it also created the ARES Fellows program to fund it. Revenue from the strictly voluntary Fellows program goes to the ARES Foundation. Programs supported by the Foundation have focused on assisting individual participation in ARES activities as well on educational publications. The Foundation funds the Doctoral Student Seminar by defraying costs for graduate students to attend the Seminar and ARES Annual Meeting and holding a luncheon in their honor on the day of the Seminar. These graduate students are the future leaders of ARES and the Seminar enables new scholars to be exposed to ARES. The Foundation has also funded the participation of real estate scholars from Africa, Latin America, Asia and Eastern Europe at ARES annual meetings. Involving these scholars has enhanced the meeting experience for all ARES members.

The Foundation, thanks to the generosity of numerous donors, sponsors the Marc Louargand Best Paper by a Practicing Professional at the ARES Annual Meeting Award of $1,500/year. Competition for this coveted prize has resulted in numerous excellent paper submissions.

The Foundation's Board has recently increased funding for the Doctoral Seminar. To maintain high funding levels, the Foundation needs additional contributions and outside sponsorships as endowment investment earnings are not sufficient to fund large numbers of grant recipients.

The Foundation depends upon the support of the ARES Fellows and other Foundation contributors. Each ARES Fellow currently contributes $250 per year, each ARES Distinguished Fellow contributes $500 per year, and each Benefactor contributes $1000 per year. In addition, each Endowed Doctoral Sponsor contributed $10,000 to the Foundation. An Endowed Doctoral Sponsorship enables annual funding for a doctoral candidate to travel to the ARES Annual Meetings to present his/her research. A $25,000 contribution endows an International Scholar Sponsorship which will provide travel funding for a scholar from a Less Developed Country to present his/her research at the ARES Meeting. Individuals who endow a Sponsorship are lifetime Fellows and are invited to offer their views on the direction of the Foundation at the annual Foundation Board Meeting.

Corporations and foundations are encouraged to directly sponsor a graduate student or an overseas scholar. Student sponsorships are $1,500/year. An overseas scholar can be funded for $2,500/year. Please contact David M. Harrison for additional sponsorship opportunities.

If you are not contributing to the James R. Webb ARES Foundation, we encourage you to consider doing so. Your gift will help a scholar immediately. As contributions grow, the Foundation will help more doctoral students and international scholars.

For additional information regarding how you can contribute, please contact David M. Harrison at David.Harrison2@ucf.edu.

SEMINAR OVERVIEW AND FOCUS

This seminar will be the opening session of the 35th Annual Meeting of the AMERICAN REAL ESTATE SOCIETY

CO-SPONSORED BY:
The Appraisal Institute (AI), CCIM Institute, Royal Institution of Chartered Surveyors (RICS), CoStar, National Association of Realtors (NAR)/Realtor University, Real Capital Analytics, The Counselors of Real Estate (CRE), The Mueller Cycle & Sustainability Fund, SynerMark Properties, Inc. and USAA Real Estate Company, in conjunction with the American Real Estate Society (ARES) and other sponsors to be named.

ORGANIZED BY

Neil Shah, Managing Director, RICS Americas, and Director of the Critical Issues Seminar, ARES; and
Stephen A. Pyhrr, Senior Managing Director/CEO, SynerMark Properties; and Director of Development, ARES

THEME: TECHNOLOGY

Opportunities to disrupt the real estate sector span the entire built environment from land, property and construction. In New York City alone, there are 575 technology start-ups focused on real estate. These new ventures have the best and brightest minds focusing on how they will disrupt the way business is done. The game for many in real estate is changing and will continue to be disrupted and/or enhanced as innovation builds our industry.

InfoTech: The Internet and mobile telephony have enabled a boom in technology platforms applied to nearly all areas of our lives — jobs, homes, education, health, leisure, finance, and romance (dating sites). At the core of this technology is information, thus the term developed “Infotech”, which included online information engines such as Wikipedia and online newspapers. Information is the key ingredient into the due diligence phase of every transaction. Shopping online, Paypal, Amazon, and online banking are good examples of information technology that serves as a medium for the exchange of money, goods and services. Information technology also enables the remote control of driverless cars and delivery vehicles, plus bots offering a range of services, and is setting in motion a range of impacts on real estate.

FinTech: This area of real estate technology includes an array of money-oriented industry sectors — mortgage lenders, payments/billing systems, personal finance/wealth management, money transfer/remittance, blockchain/bitcoin, institutional investment/capital markets, equity crowdfunding, property insurance, valuation, investment analysis, and so on. Some individuals might consider these companies and industry sectors to be part of “PropTech”, but they can also be considered separately and categorized by the term “FinTech.”

PropTech: These technologies focus primarily on the physical aspects of real estate — land development, architecture and engineering, construction, smart buildings, sustainability, property and asset management, marketing and brokerage, and so on. The rapidly developing area of artificial intelligence and its related technologies are integral to PropTech, FinTech, and InfoTech, thus span the entire realm of real estate technology platforms and applications.

CRITICAL ISSUES SEMINAR FOCUS

This seminar will address all the above technology topics in various degrees of depth. We will have a keynote speaker who will summarize the big picture topics. Then we will have a series of experts who will discuss specific
areas of technology applications to data analytics, brokerage, sustainability, property and facilities management, and valuation. All the speakers will then join the moderators in a panel discussion that is directed toward various topics of interest to the speakers and audience, with questions and comments from any participant in the seminar room. With a wide variety of participants from academics and industry, all of whom are experts or have interests in some area of research and/or education, the discussions should be lively and interesting.

### KEYNOTE SPEAKERS AND TOPICS

The Critical Issues Seminar committee has been working since last summer to develop this program of keynote speakers and topics. In addition to Neil Shah (RICS and ARES Director of Critical Issues Seminar) and Steve Pyhrr (SynerMark Properties and ARES Director of Development), the Seminar Committee is directed by Terry Dunkin (Appraisal Institute and Dunkin Real Estate Advisors), Doug Sawyer (CCIM Institute and Sawyer Properties), Ron Throupe (University of Denver and American Valuation Partners), Larry Wofford (University of Tulsa) and David Funk, (Roosevelt University and ARES Executive Director). This year, the Committee designed a program of technology topics and speakers that addresses this major topic of mutual interest to our industry and academic members.

**SPEAKERS:**

**Technology Keynote Speaker:** Dr. Wolfgang Schafers, University of Regensburg

**TECHNOLOGY APPLICATIONS BY INDUSTRY SECTORS:**

**Brokerage:** Michael Mandel, CEO, Compstak  
**Data Analytics:** Jay Spivey, Senior Director, Analytics, CoStar  
**Sustainability:** Theddi Wright Chappell, CEO, Sustainable Values  
**Property and Facilities Management:** Jim Reavey, CEO, Vixxo  
**Valuation:** Mark Snow, Chief Appraiser, Citibank

**PANEL DISCUSSION:**

All speakers above in a moderated Q&A.

### SUMMARY

The overall goal of our 2019 seminar is to develop ideas and insights into how technology developments will affect the real estate business both positively and negatively, and how decision makers, practitioners, educators and researchers can profitably adapt to the massive changes that are coming.

Many organizations work with our ARES leadership on various education, research and publication initiatives, and many are premium members of ARES and sponsor most of our 22 annual manuscript prizes on subjects they are interested in. Many have also been involved in panels and paper presentations on education subjects within our “Education Track,” the nine-session sequence that spans three days of the ARES Annual Meeting (Thursday through Saturday) sessions each year. Thus, the ARES Annual Meeting is progressing rapidly to bring together interests in real estate education and research among academic and professional ARES members and their respective organizations and institutions. Jump on board and make a difference with us!

### HOW TO PARTICIPATE

For further information, please contact Neil Shah, ARES Critical Issues Seminar Director, Managing Director, RICS Americas, (email: nshah@rics.org); Steve Pyhrr, ARES Director of Development, Senior Managing Director and CEO, SynerMark Properties, Inc., (email: spyhrr@synermarkprop.com), or Melissa Miller, Managing Director, SynerMark Properties, Inc. (email: mmiller@synermarkprop.com). Your comments, suggestions, and participation are encouraged.

Co-Sponsored by Institute of Real Estate Management (IREM); National Apartment Association Education Institute; CoreNet Global; and Colvin Institute of Real Estate Development, University of Maryland

To encourage peer networking among junior, mid-career, and senior female participants and to foster communication between junior and senior members of the profession, C-WI(RE)^2 will organize a mentoring session following our annual breakfast. At this event, senior members (predominately senior women) are pre-assigned to one of a variety of topical tables to provide mentoring advice to early and mid-career women in areas such as research and publishing, tenure and promotion, non-academic careers, teaching, work-life balance, and the job market. Please join us for a productive networking and mentoring session.

SESSION 13: PANEL ON REAL ESTATE RESEARCH IN NON-TRADITIONAL AREAS

This session will address the current tradition of real estate scholarship and contemplate what areas of activity in the real estate industry or what valid perspectives on the industry might not be included. While the achievements and rigor of the mainstream framework applied to most research presented in the journals of ARES and at the annual conference are commended, with the rapid urbanization that is occurring globally numerous problematic outcomes are becoming apparent and the resolution of these might require an extension of intellectual attention.

The panel discussion will identify emerging practices and trends that illustrate the convergence between the hospitality industry and institutional real estate investments. The purpose of the panel is to create a forum for thought-provoking dialogues that can challenge the existing industry boundaries and construct paradigms for new modes of practice in real estate. The panel will focus on three aspects of these convergence trends: 1) How have institutional investors been adopting service-driven operations learned from the hospitality industry into their real estate investment management process? These intensive service-oriented operations include but are not limited to branding, experiential constructs, management, online technology application, and emphases on sustainability. 2) What value-adding strategies and spatial utilization methods have been learned and applied from each industry to the other to enhance their investment performances given the current macro environment, especially with the emergence of the sharing economy? 3) To what extent can a reciprocal performance measure matrix be constructed in order to enhance the return measures for the investments by each industry and strengthen the communication between the two fields? The ultimate goal of the panel is to explore ideas and strategies for optimizing asset value from cross-fertilization between the two fields and reinforce the need for transdisciplinary collaboration.

SESSION 31: PANEL ON THE INTERNATIONAL REAL ESTATE SOCIETY AT 25

IRES was founded 25 years ago as an umbrella organization for ARES, ERES, and PRRES. Since then the umbrella has expanded to include AsRES, AiRES, and LARES. The panel will discuss the mission and role of IRES, how it has evolved and what members want it to be in the future. Topics will include opportunities for international cooperation in education and research, teaching and research funding sources, the relationship between academics and industry, and improved communication. Audience input will be used in revising the IRES strategic plan.

SESSION 33:  EDUCATION TRACK 3: PANEL ON CORPORATE REAL ESTATE EDUCATION

Charged with making real estate a strategic advantage for business operations and talent recruitment/retention, corporate real estate professionals do far more than respond to a corporation’s space needs; instead they flex their development muscles in good times and in downtimes during which many developers retreat to the sideline or even declare bankruptcy. This panel will hear from two institutions that have initiated corporate real estate tracks. The panel will discuss the various reasons behind the development of the tracks, the opportunities available, and the challenges encountered.

Real estate publications are a key dimension in all academic staff profiles in establishing their research stature for promotion and tenure. Numerous papers have been published in the real estate journals concerning the significance and publication stature of specific real estate journals, institutions and individuals. With recent years seeing an increased emphasis on research impact (e.g. AACSB), it is also important to assess the impact of this real estate research and how real estate researchers have contributed to this impact.

SESSION 76: PANEL ON CORPORATE REAL ESTATE RESEARCH

This panel will discuss (1) Where is corporate real estate research today? What types of CRE research/topics get published in leading scholarly and practitioner journals? (2) What opportunities and challenges do academics face when under-taking research on CRE and attempting to publish in scholarly journals? (3) What corporate real estate topics would industry professionals be most interested in scholars doing research? (4) What collaboration opportunities exist between academic researchers, industry professionals and profession-al organizations (e.g. industry CRE data available to academic researchers and CRE industry assistance with survey research)? (5) How can collaborative CRE research findings be best communicated to academics CRE professionals, and students? (6) What steps are needed to formalize a CRE research agenda that can guide and benefit both academic researchers and industry professionals?

After the ARES meeting, but no later than June 1, 2019, authors interested in having their paper considered for any of these manuscript prizes should submit an electronic copy of their paper to the portal on aresnet.org. The portal will close on the June 1st deadline. Papers may be considered for up to two prizes, but may win only one prize.

Winners are strongly encouraged to submit their papers to an ARES journal, as prize sponsors are ARES members and significant financial supporters of our journals. However, if a paper’s authorship chooses to submit to a non-ARES journal, winners must acknowledge receipt of the prize and the sponsor of the prize in a cover page footnote or acknowledgement section of the paper and notify the ARES Director of Publications as to its election.
