Assistant, Associate, or Full Professor - Real Estate Development

The Department of Urban and Regional Planning and the Department of Architecture at the University at Buffalo, The State University of New York, invite applications for a tenure-track faculty position in our Master of Science in Real Estate Development (MSRED) program. While we expect to appoint at the rank of Assistant Professor, we will consider applicants and appointments at the level of Associate Professor or Professor.

Qualified candidates should hold a terminal degree in a relevant field – including real estate development, urban planning, architecture, law, finance, and others – at the time of appointment. Although a doctoral degree and/or licensure is preferred, it is not required. Applicants should have a broad understanding of the industry and specialized knowledge in at least one relevant subfield, such as low-income housing, project finance, and others.

The duties of the selected candidate will involve a combination of teaching; research or scholarly productivity from external funding, possibly in connection with one of the six research centers in the school, facilitate research in collaboration with students and faculty, and disseminate research to professional audiences; service to the department, school, university, and community; and administrative responsibilities including advisement, student recruitment, and professional outreach to friends and benefactors.

The Department of Urban and Regional Planning offers five degree programs: B. A. in Environmental Design, an accredited Master of Urban Planning, Master of Science in Real Estate Development, Master of Science in Architecture (Historic Preservation), Ph.D. in Urban Planning, and two dual degree programs (with Architecture and Law). The MSRED program is in its sixth year with growing enrollment and excellent employment placement for graduates. UB has the only master’s-level real estate program in a state university in the U.S. northeast. This academic program builds on UB’s strong tradition of applied learning, with capstone and other project-based courses and provides a multi-disciplinary, practical, and focused education with courses in financial analysis and investment, construction management, market analysis, building technologies, structuring deals, cities and environment, and numerous electives.

The School of Architecture and Planning, with approximately 40 full-time faculty and 700 students, is home to the Department of Architecture and the Department of Urban and Regional Planning, both offering accredited graduate programs. Located on the university’s historic South Campus, our 19th century academic building recently underwent a $30 million renovation.

The University at Buffalo is a member of the prestigious American Association of Universities (AAU), a Carnegie Class I research university, and is the most comprehensive institution in all of New England. Western New York has unique characteristics that make it an ideal place to live and work. The binational Niagara region of Western New York and Southern Ontario offers a high quality of life and an exceptional setting for engaging planning issues. “The City of Good Neighbors,” Buffalo is the second largest urban area in New York State. Buffalo is a cultural center with excellent theater, museums, and music, and is among the most affordable cities in the U.S. In addition, the surrounding environment provides convenient access to sailing, boating, and fishing, as well as skiing, hiking, and the beauty of Niagara Falls. For more information, see: http://www.buffalo.edu/about_ub/the-buffalo-niagara-region.html.

Applications should include a curriculum vitae, names and contact information for three references (academic references are desirable but not required), and a cover letter discussing the candidate’s experience, professional capabilities, teaching, and research interests. All applications should be sent through the University at Buffalo’s job postings at: http://www.ubjobs.buffalo.edu/postings/22248.

For specific inquiries, please contact Barbara Carlson at carlsonb@buffalo.edu. Applications will be reviewed beginning in December 2019, and review will continue until the position is filled.

The University at Buffalo is an affirmative action/equal opportunity employer and, in keeping with our commitment to developing an excellent and diverse community of scholars and students as well as committed to excellence in research, education, and service, we welcome all to apply including veterans and individuals with disabilities.
