

## **James Kennedy Biography (as of 11/2018)**

James Kennedy is the Records Manager at Tallgrass Energy, an oil & gas pipeline company, headquartered in Lakewood; CO. James has been in the records and information management field for over ten years, in various different positions. James' time spent as a records consultant working with a variety of different organizations has given him a cross-functional ability that is unique in records. It is that ability that has enabled James to attain his CRM in 2013 and IGP in 2015. James has been an active member of the Mile High Denver Chapter of ARMA, participating on the board of directors in multiple key roles. James was also the Region Advisor for Education & Programming for the Midwest/Rocky Mountain region. James is looking forward to the next challenge and is excited about the opportunity to serve on the ARMA International Board (preferably as the president-elect). Thank you!

## ARMA Statement

As a member of the ARMA board, I will provide strategic leadership and planning, and be an active participant. I will be of service by utilizing my in-depth knowledge of established governance & information management principles and procedures to develop, maintain, and implement efficient systems for managing the lifecycle of an organization's digital assets. And, as the ARMA board, this should be our primary objective.

~ James Kennedy CRM, IGP
