

A Celebration

Records and Information Management Month

Records and information Management services are an integral part of our everyday lives. The fiscal well-being of a company or agency greatly depends on the proper management of records and information. The Houston community confidently anticipates efficient handling of data and information to accomplish its day-to-day business activities.

The quality and effectiveness of these services are vitally dependent upon the efforts and skills of Records Managers, Administrators and Records Personnel. The efficiency of personnel who staff records departments is influenced by public attitude and their understanding of the importance of the work performed by records professionals. The support of an informed citizenry and company management is crucial to the efficient operation of Records and Information programs.

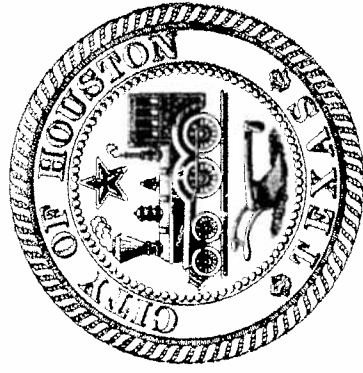

The Houston Chapter of the Association of Records Managers and Administrators, along with thousands of records and information professionals within our nation or posted internationally, will celebrate **Records and Information Management Month** during the month of April 2009. This year's theme is "Leading with PRIDE (Professionalism, Responsibility, Integrity, Determination, Excellence)".

The City of Houston salutes and organizers and participants of **Records and Information Management Month**, and extends best wishes for a successful and rewarding observance.

Therefore, I, Bill White, Mayor of the City of Houston, hereby proclaim the month of April 2009, as

Records and Information Management Month

in Houston, Texas.

In Witness Whereof, I have hereunto set my hand and have caused the Official Seal of the City of Houston to be affixed this 23rd day of April, 2009.

Bill White
