Statewide Trends

ASBO New York is pleased to present its ninth annual School District Factbook for your information and use. The Factbook was designed to provide up-to-date data to state policymakers, especially state legislators. It includes maps of 673 major school districts including the Big 5 city school districts in each legislative district. It has information on each school district including spending, tax levies, state aid, student need, federal stimulus, and the percentage of each school district's area that is included in each legislative district.

Data on Foundation Aid still due provide a school district level breakdown of the \$3 billion needed to fully implement the Foundation Aid formula enacted in 2007 and still in effect today. In current law, each school district with Foundation Aid still due will receive half of the still due amount in 2022-23 and full Foundation Aid in 2023-24.

Also included are prior year adjustments approved by the State Education Department and owed to school districts.

Spending for the 2020-21 school year was \$76.5 billion, a 1.2% increase from the year before. The total proposed tax levy for school year 2021-22 was \$22.9 billion, a 2.3% increase over the year before. School districts levied \$98.7 million less than the maximum allowable under the Tax Cap law. Student enrollment for school year 2020-21 decreased to 2.5 million students, a 2.7% decline compared with the year before. Average spending per student statewide was \$30,103, a 4% increase. School districts will receive \$28.7 billion in state school aid for 2020-21, including \$3.1 billion for school construction.

Data Sources include data supporting the 2021-22 New York State Enacted Budget (November 15, 2021), Tax Cap data from the Office of the State Comptroller (as of December 14, 2021), Annual Financial Report Data (ST3) for school districts for school year 2020-21 (as of December 13, 2021), NYSED ARP and CRRSA allocations, and NYSED Information and Reporting Services counts of students with disabilities. Twelve districts had their data suppressed in the November 2021 database; for these districts, we used data from the May 2021 Enacted Budget database.

About this Factbook

This Factbook provides a map of all the Senate and Assembly districts in New York State. The maps contain the school districts that lie within the legislative district and key fiscal data about each school district. School districts are color coded by their 2008 need/resource capacity category. This is a measure developed by NYSED to assess educational need in relation to the ability of school districts to raise revenues locally.

How to view the Factbook

For each legislative district, school districts are listed alphabetically, with the exception of districts that also contain one of the Big Five districts. In these cases, the Big Five district will appear at the end of the list. At the top of each legislative district's list, there is a black row that shows the overall total or average within the legislative district for each column.
