

ACCOMMODATIONS

The ASCA has reserved a room block for convention attendees. Room rates are \$159.00 plus tax per night (single/double). Please be sure to make your reservation as soon as possible by calling 334-481-5000. **Remember to request the Alabama State Chiropractic Association rate.** The official hotel of the ASCA Convention is the Renaissance Montgomery Hotel and Spa; 201 Tallapoosa Street, Montgomery, AL 36104.

For a link to online hotel reservations go to www.ascachiro.org.

CANCELLATION POLICY

We understand that unexpected events can sometimes force a registrant to cancel. It is the policy of the ASCA that all seminar fees are non-refundable. However, we will issue a credit for all fees paid for a future seminar for you or your staff to be used within a two year time frame.

MEALS & EVENTS

PRESIDENT'S WELCOME RECEPTION

Following classes on Friday, 6:00-7:00 pm, join your peers and generous exhibitors for a cocktail reception right in the exhibit hall! Enjoy hors d'oeuvres and a cash bar while you mingle with your fellow chiropractic professionals and the vendors who help make our convention a success.

ANNUAL MEETING LUNCHEON

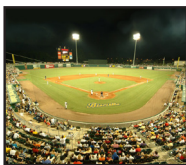

Calling all ASCA Members to join us as we **CELEBRATE** being together again! This year's General Session Luncheon is coming together and looks to be one of the best yet; so get ready to eat, drink and be merry! The Luncheon will be Saturday from 10:45 am - 12:30 pm. We will also be electing the new ASCA officers and voting on the ASCA annual award winners. To nominate someone for an award, visit the ASCA website to download the official nomination form. The deadline for nominations is May 21, 2021. **You MUST pre-register before May 21 to attend the luncheon and only those who pre-register will be served lunch.**

ANN DUNAWAY WOMEN IN CHIROPRACTIC FORUM

The ASCA is proud to host this annual networking event exclusively for our women chiropractors! We would like to acknowledge and celebrate the phenomenal women of chiropractic, who are leaders in their community and continue to make a difference in the lives of others.

Please join, Dr. Ann Dunaway, first female president of the ASCA, whom this forum was created in honor of, at the Annual Ann Dunaway Women In Chiropractic Forum for an opportunity to connect with, empower and inspire your fellow female DC's. Refreshments will be served.

CHIROPRACTIC NIGHT AT THE BALL PARK!

Take me out to the ballgame! You can end the day Saturday with the excitement of Montgomery Biscuits baseball, a AA Minor baseball team in Montgomery! The ASCA will be taking over The Whistle Stop Grille, a private picnic area transformed with a backyard barbecue feel. Nestled in the seating along the third base line, it's secluded enough to feel intimate and close enough to make you feel like part of the action. Tickets include dinner and entrance into the ASCA private pavilion and a Fireworks extravaganza after the game! The stadium is within walking distance of the convention hotel.

THE ALABAMA STATE
CHIROPRACTIC
ASSOCIATION

We are sure you will love this year's winning combination of talented speakers and tantalizing topics. Earn up to 18 hours of continuing education credit all in one weekend!

DC EDUCATIONAL PROGRAMS

FRIDAY, JUNE 11, 2021

Noon - 6:00 pm (6 CE Hours) **Mastering the Rotator Cuff (6 CE hours)**
Dr. Brandon Steele, DC, FACO *Sponsored by ChiroUp*

Rotator cuff injuries alone account for 4.5 million physician office visits per year. Management of this problem can range from frustrating to rewarding, depending on the depth of your training. This class is a practical 8-hour workshop outlining everything participants need to know about successfully treating shoulder and elbow problems. Dr. Steele will highlight the latest research-based "best practices" for evaluating, managing, and directing simple in-office or home-based rehab. He will also present a complimentary hands-on workshop of specific mobilization and manipulative techniques per diagnosis. Attendees will leave this class with greater understanding and confidence about how to manage the most common problems outside of the spine.

SATURDAY, JUNE 12, 2021

8:30 am - 10:30 am (2 CE Hours) **Alabama Law**
Alabama State Board of Chiropractic Examiners

This will be a practical discussion of Alabama Rules, Regulations and Laws. This session has been approved to fulfill the annual Jurisprudence Requirement of the Alabama State Board of Chiropractic Examiners.

1:00 pm - 5:00 pm (4 CE Hours) **Chiropractic Imaging and Case Studies**
Dr. Steve Gould, DC, DACBR, FICC *Sponsored by NCMIC*

During the first half of the session, Dr. Gould will discuss multiple abnormalities of the upper cervical spine that may or may not have predictable neurologic signs and symptoms. Some of these disorders may not be amenable to spinal manipulative therapy. Plain film radiographic and advanced imaging findings will be discussed for various anomalous and pathologic conditions. In the second half of session, Dr. Gould will present multiple "real world" cases from fellow chiropractors. Clinical presentation and imaging findings will be discussed for many of these interesting and sometimes surprising cases. This presentation is sure to keep your attention, as these patients could easily walk into your office depth of your training.

SUNDAY, JUNE 13, 2021

9:00 am - 3:00 pm (6 CE Hours) **Lower Extremity Biomechanics and the Management of Common Lower Extremity Injuries**
Dr. Kurt Juergens, DC, CCSP *Sponsored by Footlevelers*

For the past 30 years, Dr. Juergens has been treating world-class athletes from around the globe. During this 6-hour presentation, Dr. Juergens will review lower extremity biomechanics and will share his experiences on how to diagnose and manage lower extremity injuries. He will also demonstrate how to incorporate into your practice state of the art modalities and a variety of active care techniques. Dr. Juergens will present case studies on common and uncommon lower extremity conditions. This course will provide useful information that you can implement in the treatment of your patients when you return to work Monday morning.

9:00 am - 3:00 pm (6 CE Hours) **Vertebral Subluxation – The past, present, and future**
Dr. Eric Russell, DC, MBA, DPhCS, FICA *Sponsored by NCMIC*

The learning objective is for attendees to understand the current scientific concepts of vertebral subluxation. The class will cover the evolution of vertebral subluxation in the chiropractic profession. The class will cover the different concepts of vertebral subluxation, a review of basic biomechanics and neurology, and will categorize the components of subluxation. The bulk of this presentation will be from Leach's "The chiropractic theories: a textbook of scientific research". The presentation will conclude by looking at current published research in subluxation and a discussion of the discourse happening today in the profession concerning subluxation.
