The mission of the American Society of Diagnostic and Interventional Nephrology (ASDIN) is to promote the proper application of new and existing procedures in order to improve the care of patients with kidney disease.

**SCIENTIFIC MEETING**
Meeting Co-Chairs: Micah Chan, MD, MPH & Yael Vin, MD, MPH

The ASDIN Scientific Meeting offers a variety of educational and networking opportunities. In addition to the general sessions which will feature outstanding speakers sharing cutting edge knowledge on a variety of topics in the field of diagnostic and interventional nephrology, there will also be a non-physician session, administrator session, abstract presentations and product exhibits which will showcase the latest in interventional nephrology products.

**MEETING PRE-COURSE**
A special pre-course will also be held on Friday, February 13th. Registration for this hands-on program is limited. A separate registration fee is required. This program is in high demand and always reaches registration limits - so register early!

**Who Should Attend**
- Clinical Nephrologists interested in optimizing patient care
- Established and aspiring Interventional Nephrologists
- Interventional Radiologists
- Vascular Access Surgeons
- Residents & Fellows-in-Training
- Nephrology or Advanced-Practice Nurses involved in dialysis patient care or vascular access management
- Vascular Access Coordinators & Administrators
