The American Society of Diagnostic and Interventional Nephrology

Application for Certification
Practice Experience Track

Hemodialysis Vascular Access Procedures

SPECIAL NOTE: DO NOT SEND PATIENT IDENTIFIERS IN ANY OF THE PAGES SUBMITTED. PLEASE REVIEW CASE/PROCEDURE NOTES AND ALL DOCUMENTATION TO ASSURE THAT PATIENT NAMES ARE REMOVED. YOUR APPLICATION WILL BE RETURNED TO YOU AND WILL NOT BE PROCESSED UNTIL AN APPLICATION WITHOUT PATIENT IDENTIFIERS IS SUBMITTED.

If an incomplete application is submitted, the application will not be processed and no fees will be refunded. Fees will be used for administrative review. It is the responsibility of each applicant to assure that the certification application submitted is complete.

Effective 7/01/2017
Revised 6/22/2017
The American Society of Diagnostic and Interventional Nephrology
Application for Certification in Interventional Nephrology

Hemodialysis Vascular Access Procedures – Practice Experience

This application packet is composed of several parts:
- Requirements for certification
- Application for certification form
- Peer reference letter form
- Case Index Example

Checklist (check all that are included with application)
- Completed application form
- Index of cases submitted
- Case records formatted as described
  (Note: Do not include patient names or identifiers. DO NOT RETYPE or REPRODUCE case notes.)
- Continuous quality improvement (CQI) documentation
- Application fee ($500/members* or $795/includes application fee and membership*)
  *ASDIN membership must remain active while certified. If ASDIN membership lapses, dues must be made current before certification will be reinstated.

Peer reference letters (2)
(Note: Peer reference letters to be submitted directly to ASDIN by peer letter authors.)

The following advanced procedures associated with Broad Area Certification are requested (check all that apply):
- Obliteration of accessory veins (fistula side branches)
- Subcutaneous port placement

(Note: These advanced procedures have special requirements as noted below. If special requirements for these advanced procedures are not met at time of initial application, these advanced procedures may be added within one year of the original HVA application or at the time of recertification for an additional fee of $100.)

The application and all documentation should be submitted to the ASDIN office via upload at www.asdin.org/certform
The American Society of Diagnostic and Interventional Nephrology
Application for Certification in Interventional Nephrology

Hemodialysis Vascular Access Procedures – Practice Experience

**General**
Certification is available in the broad area of Interventional Nephrology which includes both the basic vascular access categories of tunneled hemodialysis catheters and hemodialysis vascular access endovascular procedures. Certification will be granted for five (5) years contingent upon active ASDIN membership.

In addition, there are two advanced procedures with special requirements available with the broad area certification. Advanced procedures for which there are special requirements in addition to the broad area certification:

- Subcutaneous port placement
- Obliteration of accessory veins

**Application Fee**
A fee of **$500 for members** or **$795 for application fee and membership** must accompany the application. This fee is nonrefundable. This fee is to cover the expense of processing the application. The application fee may be paid online with a credit card upon submission at [http://www.asdin.org/certform](http://www.asdin.org/certform). Checks should be made payable to The American Society of Diagnostic and Interventional Nephrology.

Please mail check payment to: ASDIN, PO Box 115, Clinton, MS 39060.

*ASDIN membership must remain active while certified. If ASDIN membership lapses, dues must be made current before certification will be reinstated.*

**Practice Experience Requirements**
In order to fulfill the requirements for certification, the applicant must provide documentation that they:

1. are currently certified by the American Board of Internal Medicine in Nephrology, American Osteopathic Board of Internal Medicine in Nephrology, American Board of Radiology, American Board of Surgery, or National Board of Physicians and Surgeons. (Note: No exception will be granted for Board certification or recertification that is pending.)

2. practice as an Interventional Nephrologist, Interventional Radiologist or Surgeon in the United States (Note: ASDIN HVA certification is only valid as long as certified physician is practicing in the US. Certification is void outside of the US.)

3. have practiced as an Interventional Nephrologist, Interventional Radiologist or Surgeon in the United States **for a period of not less than one year** during which time no less than one-hundred twenty-five (125) procedures§ have been successfully completed as primary operator in the following categories within the preceding 24 calendar months of the submission of the application for certification:
   a. Angiography of peripheral hemodialysis vascular access – 25 cases including both grafts and fistulas
   b. Angioplasty of peripheral hemodialysis vascular access – 25 cases including both grafts and fistulas
   c. Thrombolysis/thrombectomy of peripheral hemodialysis vascular access – 25 cases including both grafts and fistulas
d. Endovascular stent placement – 10 cases

e. Tunneled long-term catheter procedures – 25 cases, of which at least 13 cases must be de novo placements and the remainder may be catheter exchanges.

§ Please note that a total of one-hundred twenty-five (125) interventional procedures in categories a - e above must be completed within the preceding 24 calendar months of the submission of the application for certification. Although a certain number of procedures of each category must be completed in items a - e, totaling one-hundred ten (110) procedures, the additional fifteen procedures required may be any combination of procedures from category a – e above (Applicant’s Choice).

4. (Optional) For advanced procedures in addition to Broad Area above in item # 3, must have successfully completed the following number of procedures as primary operator within the preceding 24 calendar months of the submission of the application for certification:

   a. Obliteration of accessory veins (fistula side branches) – 5 cases

   b. Insertion of subcutaneous ports – 5 cases

¥ These are considered to be advanced procedures; it is possible to be certified in the broad category exclusive of these procedures. If special requirements for these are not met at time of initial application, these advanced procedures may be added within one year of the original HVA application or at the time of recertification for an additional fee of $100.

Clinical Expertise
Each applicant must demonstrate their clinical expertise by submitting records demonstrating their ability to diagnose problems, individualize treatment, perform procedures, and recognize and manage complications appropriately.

Case Records
Records documenting the following successful cases, performed within the 24 months preceding the certification application, must be submitted:

• AV Grafts
  o Angiography — 10 Cases
  o Angioplasty — 10 Cases
  o Thrombolysis/thrombectomy — 10 Cases

• AV Fistulae
  o Angiography — 10 Cases
  o Angioplasty — 10 Cases
  o Thrombolysis/thrombectomy — 2 Cases

• Endovascular Stents
  o Placement – 5 cases

• Tunneled Hemodialysis Catheters
  o Placement of 10 tunneled catheters

For Advanced Procedures with Broad Area certification:
These are considered to be advanced procedures; it is possible to be certified in the broad area exclusive of these procedures. If special requirements for these are not met at time of initial application, these advanced procedures may be added within one year of
the original HVA application or at the time of recertification for an additional fee of $100.

- Accessory Vein (fistula side branch) obliteration
  - Performance of 3 surgical procedures
- Subcutaneous Ports
  - Placement of 3 ports

Format for case records: In submitting records to demonstrate the applicant’s ability to diagnose problems, individualize treatment, perform procedures, and recognize and manage complications appropriately, the following format should be followed:

1. Case identification - Use case numbers
   i.e., Angioplasty Case #1, Thrombectomy Case #1, etc. (do not use patient names)
2. Indications for procedure
3. Details of procedure (operative note will suffice)
4. Description of any complications encountered
5. Description of management of complication, if encountered
6. Outcome of procedure

PLEASE NOTE: Only original case notes with patient identifiers removed should be submitted. DO NOT RETYPE or REPRODUCE case notes.

In addition, an index of the cases submitted must be provided. This index should list the categories of cases being submitted (angiogram, angioplasty, thrombectomy, etc.) followed by the number of the case that is being submitted to fulfill the requirement for that category. Please note that an individual case may be fulfilling the requirement for more than one category. For example, a thrombectomy case includes an angiogram and an angioplasty in most instances. (See recommended format for case index at end of this application.)

Continuous Quality Improvement (CQI)
Applicants must provide documentation of current Continuous Quality Improvement (CQI) within the past 24 months including documentation of radiation safety. A review of personal complication rates for interventional procedures, minutes of CQI meetings, reporting of fluoroscopy time, or CME in radiation safety are examples of data that would satisfy this requirement.

Peer References
Each applicant must provide two letters of reference from peers that are familiar with their Interventional Nephrology practice. Only one of these letters can be from a current professional associate. At least one Peer must indicate they have had direct knowledge of the applicant’s completion of one-hundred twenty-five (125) interventional procedures with at least the minimum numbers specified in the following categories:

- 25 Angiograms
- 25 Angioplasties
- 25 Thrombectomies
- 10 Endovascular Stent Placements
- 25 Tunneled Catheter Cases (a minimum of 13 de-novo placements, no more than 12 exchanges)

The attached form letter should be used for that purpose. All reference letters should be submitted directly to ASDIN by the peer letter author and not by the applicant.

**Peer Recommendations**

Please list two peers who are familiar with your practice experience that you have asked to send a letter of recommendation on your behalf. Please refer to the Peer Reference Section on page 5 for specific peer requirements.

Name of Doctor

City, State, Zip Code

Name of Doctor

City, State, Zip Code

**Signature**

I certify that the information contained herein is correct and complete to the best of my knowledge.

Signature  Date

Telephone Number  Email Address
The American Society of Diagnostic and Interventional Nephrology
Letter of Peer Recommendation

Waiver of Access (To be completed by Applicant before providing to Peer Letter author):
I agree that this peer recommendation will remain confidential.

Signature of Applicant: _______________________________ Date: ________________

To Whom It May Concern: Date: ________________
I understand that __________________________________ has applied for certification in Diagnostic and interventional Nephrology. I have been asked to provide a letter of reference as part of the documentation required for this process.

I have known the applicant for _____ years. My relationship to the applicant during this time has been as __________________________________________.

I have direct knowledge of the applicant’s medical practice activity in Interventional Procedures:
___ Yes ___ No

VERIFICATION OF DIRECT KNOWLEDGE OF CASE PROCEDURES

I also have direct knowledge of the applicant’s completion of the following:
(Please specify number for each procedure – must be at least the required number)
(DO NOT PUT CHECKMARKS IN BLANKS BELOW – THERE MUST BE A NUMBER ENTERED IN EACH BLANK
One Hundred Twenty-Five Interventional Procedures (125 required)
___ Angiograms (minimum of 25)
___ Angioplasties (minimum of 25)
___ Thrombectomies (minimum of 25)
___ Endovascular stent placement (minimum of 10)
___ Tunneled Catheter Cases (minimum 25 cases of which at least 13 cases must be de novo placements and the remainder may be catheter exchanges)
___ Total Interventional Procedures (125 required)

VERIFICATION OF DIRECT KNOWLEDGE OF OPTIONAL CASE PROCEDURES

(To be completed only if Applicant is applying for any combination of one or both of these advanced procedures. Only complete for advanced procedures requested by applicant.)

I also have direct knowledge of the applicant’s completion of the following:
(Please specify number for each procedure – must be at least the required number)
(DO NOT PUT CHECKMARKS IN BLANKS BELOW – THERE MUST BE A NUMBER ENTERED IN EACH BLANK
___ Obliteration of accessory veins (fistula side branches) (minimum of 5)
___ Insertion of subcutaneous ports (minimum of 5)
Letter of Peer Recommendation (Page 2 of 2)

My knowledge is best described as ___ Minimal ___ Moderate ___ Detailed

My knowledge is based upon ___ Direct observation ___ Shared patients

I would describe the applicant _______________________________ as having the following level of expertise in Interventional Procedures:

☐ below average  ☐ average  ☐ above average  ☐ superior
