

INDUSTRY AWARDS - CATEGORIES OF SUBMISSIONS

Industry Award Categories

- Best Estimate
- Most Innovative Project Award

Best Estimate Award

The ASPE Industry Best Estimate Award is given to the entry in its sub-category that displays the best overall estimate of a proposed project across any sector. Benchmarks can include, but are not limited to the following.

- Estimate Efficiency
- Estimate Accuracy, Budget and Materials
- Revisions
- Client Satisfaction
- Tools and Technology Used

Most Innovative Award

The ASPE Industry Most Innovative Award is given to the entry in its sub-category that displays the most unique and innovative benchmarks across the entire scope and process of the project submitted. Benchmarks can include, but are not limited to the following.

- Innovative Design Build
- Creative Design Build
- Technology Elements of Project
- Technology Solutions
- Green Innovation
- Community Involvement
- Addressing Environmental or Coding Concerns

All Entries Must Include a Project Narrative

Your narrative must not exceed a maximum of 750 words. The narrative should focus on why the project should be considered the best in its category. This information will also be used for the award presentation should you win an award. Note: The descriptions of each of the required elements are meant to be used as guidelines. You should interpret all criteria based on your own unique project submission and respond accordingly.

Visual Presentation

While points are not awarded for the visual presentation, photos can impact your entry as they help to tell your story. Support your narrative with photos showing the scope and process of the project and any challenges described in the narrative. Include up to 3 photos in your submittal.

NOTE: ASPE reserves the right to adjust categories based on number of submissions received.
