

CALL FOR RESEARCH INSTITUTE PRESENTERS

Proposal Deadline: 11:59pm EST March 30, 2020

Proposals for *Oral Presentations* should represent completed research projects, or research with enough waves of analyzed data to confidently present current significance of findings and anticipated trajectories.

Proposals for the *Poster Sessions* can be submitted in one of three categories: (1) Research; (2) Research to Practice; or (3) Practice.

	Category 1 Research Presentation	Category 2 Research Poster	Category 3 Research to Practice Poster	Category 4 Practice Poster
Description	Primary research that is concluded, or has enough waves of analyzed data to confidently present current significance of findings and anticipated trajectories.	Primary research that is recently concluded, or in progress. Note: Research in progress proposals must include preliminary data to be considered for acceptance.	Secondary research, that involve: <ul style="list-style-type: none"> • Meta-analysis/synthesis project • Evidence-based projects • Theory or Conceptual-based projects Note: Literature reviews will not be considered for acceptance	Highlights a RT program or in-service training that has been piloted/completed at least once, and (a) produces client outcomes, and/or (b) contributes to “best practices” where clients benefit
Required Proposal Components	<ul style="list-style-type: none"> ○ Introduction/Lit review ○ Methods (i.e., sample, intervention, data collection and analysis) ○ Results ○ Discussion ○ Implications for RT ○ In-text Citations & References 	<ul style="list-style-type: none"> ○ Introduction/Lit review ○ Methods (i.e., sample, intervention, data collection and analysis) ○ Results (note: preliminary results may be submitted if finalized results are not available) ○ Discussion ○ Implications for RT ○ In-text Citations & References 	<ul style="list-style-type: none"> ○ If meta-analysis/synthesis: Inclusion criteria (e.g., search terms, number of articles included) ○ If theory-based project: Explanation of conceptual/theoretical framework ○ If meta-analysis/synthesis or evidence-based project: Summary of current evidence and/or research findings ○ All projects: Application and translation of research/concept/theory in RT practice ○ In-text Citations & References 	<ul style="list-style-type: none"> ○ Program overview (i.e., population, setting, content and frequency/duration of program, staffing, equipment/resources) ○ Program goals ○ Assessment processes ○ Program evaluation and outcomes ○ Lessons learned and/or suggestions for replication specific to RT ○ In-text Citations & References
Examples	<ul style="list-style-type: none"> ○ Qualitative, quantitative or mixed methods research study ○ Effects of xyz intervention on xyz outcome in xyz population 	<ul style="list-style-type: none"> ○ Qualitative, quantitative or mixed methods research study ○ Effects of xyz intervention on xyz outcome in xyz population 	<ul style="list-style-type: none"> ○ Knowledge translation plan ○ Meta-analysis or meta-synthesis ○ Conceptual paper in which theory is applied to a current trend/issue 	<ul style="list-style-type: none"> ○ Piloting a specific intervention ○ Program protocols ○ Piloting of in-service staff training curriculum ○ Piloting of Assessment or Evaluation process

Not sure which category to submit to? Have questions about the submission process? For questions about submissions to the research institute, please email JANKEM@ecu.edu, and include “ATRA Oral Presentation” or “ATRA Poster Session” in the subject line.
