

JUNE 7TH, 2018

OKVAN MEETING

“MIDLINES FROM THE INFECTION PREVENTION SIDE OF THE TABLE”

- Describe the current evidence regarding the use of midlines as part of a CLABSI reduction strategy
- Conduct a review of CLABSI and PIV bloodstream infection cases to identify patients who may have been candidates for a midline catheter instead
- Collaborate with Infection Prevention to determine mutually agreeable objectives for a safe and monitored framework for a robust midline program

→ Register for meeting [here](#)

COST: FREE TO OKVAN MEMBERS, \$15 FOR NON-MEMBERS

*** No refunds in cases of non-attendance by the registrant ***

(Provider approved by the California Board of Registered Nursing, Provider Number CEP12371 for 1 contact hour)
