Follow-up to AzDHS Conference Session

A few issues were brought up during the Q&A discussion portion of the session with the Arizona Department of Health Services (DHS) at the recent AAHC Conference.

AAHC is in the process of exploring and clarifying these issues with DHS and will be providing a recap as well as sharing official guidance from DHS where applicable. Until then, we encourage Members refer to the slides (handouts) from the session and use other published documents (regs) as their guide with regards to policies and procedures.
