HEALING@HOME
Care Transitions for COVID-19 Patients

Help is now available for COVID-19 discharged patients in Maricopa County. Through the new Healing@Home Care Transitions Program, the Area Agency on Aging is providing COVID-19 discharged patients with comprehensive care transitioning to their home environment. Program is funded by the Administration for Community Living (ACL) and administered by the Arizona Department of Economic Security (ADES), Division of Aging.

Healing@Home will focus, for a period of at least 30 days from discharge date, on providing COVID-19 discharged patients with timely access to in-home social support services and psychosocial support services that are of greatest need including:

• Home-delivered meals
• Telephone reassurance calls
• Assistance with prescription pick-up or delivery
• Arrangement of follow up visits with PCPs
• Reinforcement of discharge plan instructions
  access to other community social programs and services

Eligibility is limited to individuals age 60 or older and those age 18-59 with disabilities who are discharged with a COVID-19 diagnosis. Referrals should be made within 7 business days of discharge.

Area Agency on Aging invites health care workers and case managers to refer eligible patients discharged from hospitals, rehabilitation facilities, or skilled nursing facilities with a COVID-19 diagnosis to the Healing@Home Care Transitions Program for COVID-19 patients. Discharged clients may also self-refer.

To refer patients, call Healing@Home Program at (602) 883-3527 or send encrypted email to HealingatHome@aaaphx.org. For additional program information, contact Christine Liberato, VP Program Development at (602) 280-1050 or via email at Christine.Liberato@aaaphx.org.
