The National Medical Health Collaborative is a nonprofit organization of employers focused on promoting and advancing healthcare.

Membership is open to healthcare societies and medical practices. Complimentary membership is available to medical practices that support the mission of the organization.

Membership benefits include:

- **Education** - The Collaborative promotes education for healthcare practitioners through on-demand training and the development of fact sheets addressing hot topics in healthcare.

- **Advocacy / Policy Development** - The Collaborative engages in policy development and advocacy to ensure the voice of healthcare practitioners is heard on matters affecting their regulation and financial profitability.

- **Practice Solutions** - The Collaborative provides resources and guidance to employed and private practice physicians, and their administrative staff.
