The AZ Water Pretreatment/FOG Committee is hosting a workshop this fall to inform, educate, and train water and wastewater professional technicians, regulatory inspectors, managers, policymakers, and others on the latest developments in wastewater (industrial) pretreatment and FOG program management.

The committees are currently seeking abstracts for presentations from industry professionals on:

- Case studies from field work and investigations (criminal included)
- Addressing challenges of specific users, ex. bakeries, breweries
- Local Limits, Sewer Use Ordinances, Enforcement Response Plans
- Trouble-shooting grease interceptor problems
- Other topics relevant to FOG and/or (industrial) pretreatment

Submission Requirements:

- Presentation title and time allotment
- An abstract of 500 words or less describing the presentation
- A description of presenters’ qualifications in 150 words or less
- Presenter contact information - name, occupation, organization, email, and phone number

ABSTRACTS DUE August 7th, 2020

SUBMIT QUESTIONS AND COMPLETED ABSTRACTS TO AZFOG@AZWATER.ORG

Located at the Mesa Convention Center - 263 N Center St, Mesa, AZ 85201
