Scholarships are available for college/university students interested in attending an AZWater Technical Luncheon. Please contact us!

Topic: Controlling Fugitive Odor Emissions Gives Pima County a Breath of Fresh Air

Presented by: Katie Vanyo, PE, Brown and Caldwell

Abstract: Pima County Regional Wastewater Reclamation Department requested Brown and Caldwell’s services in an evaluation of the existing Headworks odor control and ventilation system. Improvements to the odor-control system were needed to improve the workspace atmosphere in the buildings and prevent fugitive odors from escaping the treatment plant site. The specific goals of this project were to improve interior building environments, maintain H2S concentrations below one part per million, and to achieve airflow containment and pressure balance within the supply/exhaust system to prevent fugitive emissions.

Sponsors:

Brown and Caldwell: For more than 60 years, Brown and Caldwell has been creating leading-edge environmental solutions for public agencies and private industry. Brown and Caldwell is passionate about delivering exceptional service, collaborating with clients, adding value through innovation and building relationships that last. Brown and Caldwell has over 45 offices across the U.S. and employees approximately 1,500 environmental professionals.

The AZ Water Technical Luncheon Committee would like to thank everyone who presented, sponsored, and attended our luncheons this year.

As of our May luncheon, the committee is on break to plan next year’s season of presentations.

Kiersten Wangsvick (Stantec), Erin Lansey (HDR), Mary Valencic (PCRWRD), Erik Christensen (Westland Resources), Laura Macklin (Air National Guard), Shawn-Noel Simmons (Stantec)
