Vision
A vibrant Arizona through resilient, reliable, and safe water.

Mission
Advocate for Arizona’s water through engaging leadership, connecting professionals, providing education, and inspiring environmental stewardship.
The AZ Water Association is Committed to:

Career Development for Water Professionals
- Provide education, training, networking opportunities, and leadership programs to help water professionals advance their careers and build trust.
- Attract and inspire new and diverse talent to enter the water industry.

Collaboration and Community Engagement
- Educate and engage our communities about water and the importance of water investments.
- Encourage networking and collaboration with professional organizations, students, educators, and community members.

Safe Water for Healthy Communities
- Support industry professionals in advocating for resilient, reliable, and safe water.
- Endorse water equity for all Arizona water consumers.

Water Certainty for Arizona Consumers
- Promote long-term water resource planning.
- Advocate for resilient infrastructure.

Environmental Stewardship
- Advocate for protecting and enhancing Arizona’s natural environment.
- Promote the interconnectivity between all sources and types of water.
