BDPA Announces New Board Leadership

Supporting IT Professionals from the classroom to the boardroom

Cincinnati, June 4, 2014: BDPA Cincinnati chapter, a nonprofit organization made up of racially diverse information technology professionals, today announced a new member of its board of directors. Carmen Byes appointed to serve as the director of the chapter’s Communications Department.

BDPA Cincinnati is the 2nd-largest (out of 46) chapters in the nation. The Communications Department is responsible for communicating BDPA information via all appropriate platforms (online and offline). This department is solely responsible for maintaining current and relevant content on the chapter website (www.bdpa.org/group/CI). Finally, this department ensures that chapter members have their technical articles published in both local and national publications.

“We are very excited to have Carmen join the volunteer team on the BDPA Cincinnati Board of Directors. Carmen brings a fresh perspective, energy, technical expertise and a passion for the success of the mission of the BDPA organization,” said BDPA Cincinnati chapter president Dalric Webb. “I look forward to working with Carmen to grow our chapter and continue to expand our efforts at addressing the technology gaps within our communities.”

Carmen is a technical specialist contractor for Pomeroy with a current assignment to Fifth Third Bank. She is also an IT specialist for Staples. Carmen is A+ certified and pursuing additional Network+ and CCNA certifications. Carmen attended North Carolina A&T State University and recently graduated from Per Scholas. She’s always had an interest in working within the Information Technology industry.

About BDPA:
BDPA is the premier organization for African American professionals in the information technology industry. For more than 25 years, BDPA Cincinnati has fulfilled its mission and worked to bridge the digital divide by providing career growth opportunities for its members. BDPA Cincinnati is the fastest-growing of the 46 chapters that exist around the nation.
