

Boot Camp Sponsorship

The IABA Actuarial Boot Camp is the premier program for transitioning black actuarial students to the actuarial industry – helping them secure their first internship or entry-level position. The majority of our past attendees report that the Boot Camp was instrumental in helping them through the interview process, and in many cases, they were introduced to their employer through their Boot Camp participation.

Since the introduction of the program in 2012, IABA has impacted over 160 students.

The four-day program covers career exposure, professional development and interview readiness topics such as:

- Business writing and communications
- Excel skills
- Social, corporate and international etiquette
- Public speaking and presentation skills
- Personal branding
- Mission, vision and career planning
- Using and maximizing your network resources
- Navigating and understanding the world of business
- Resume workshops
- Mock interviews
- Maximizing career fairs
- Networking with high-level executives of IABA's Corporate Advisory Council

At the conclusion of the Boot Camp, students participate in the IABA Annual Meeting. This provides them with additional networking and career development opportunities. In our experience, many of these Boot Camp participants become active IABA volunteers and ambassadors for our great organization.

This week-long experience is provided to students at a cost of \$100 (registration fee), plus the cost of their travel to/from the meeting location.

Here are just a few Boot Camp graduates who have successfully transitioned to the Actuarial industry.

Abena Adusei
