## **Medical Leadership Programme for Consultants and Specialists**

Up to 12 CPD credits per module

The Academy specialises in developing effective clinical leaders and our Medical Leadership Programme has been created, and is delivered, by senior clinicians and experienced NHS managers to develop your confidence and competence as a leader in modern healthcare. Designed around three modules, it focuses on the key knowledge and practical skills you need to effectively lead your service or team, making it suitable for consultants in all specialties and for those who have a designated leadership role. It is also suitable for 'consultant level' Clinical Scientists. **Each module can be taken independently.**

### **Module 1: Fundamentals of Medical Leadership**

**23rd & 24th March 2020 or  
28th & 29th September 2020**

**Fee: £530**

Two day course covering the basics of medical management and leadership. Aimed at all consultants and specialists who occupy a clinical post but wish to develop an understanding of the leadership and management aspects that are inherent in all senior medical roles.

### **Module 2: Politics and the Leadership Environment**

**18th & 19th May 2020**

**Fee: £575 (Less £50 if attended Module 1)**

Aimed at all consultants and specialists with an interest in leadership, including those who aspire to, or hold, a leadership position. This course builds on the fundamental themes and uses real life study to explore the nuances of the leadership environment.

### **Module 3: The Senior Medical Leader**

**6th & 7th July 2020**

**Fee: £610 (Less £50 if attended Module 2)**

Aimed at doctors who are in, or aspiring to, a medical leadership role up to and including divisional level roles. Includes Clinical Lead, Head of Department, Clinical Director, Divisional / Associate Medical Director, or equivalent posts in the wider health system. The focus is on the current environment and set of challenges, and on providing a range of approaches to address common leadership issues in the workplace.
