

Board of Directors Nominations

The BOMA Sacramento Nominating Committee, chaired by Chetta Sinclair, President, is seeking nominations for candidates to fill several Director positions, each a two-year term. The positions are all for Principal members. Any Principal member in good standing is eligible for nomination to these positions.

Characteristics and Attributes of an Ideal BOMA Sacramento Board Member

Proven Performance

Leadership requires knowledge, talent, skill, vitality and the ability to make a difference. In the association environment, that translates into a solid track record of contributing to the success of programs, events or projects.

Commitment

Serving as an association leader is both an honor and a reward, but it requires a demonstrated commitment to the organization and its mission and goals.

Time to Serve

Participating fully in association activities requires some extra time to prepare and attend meetings.

Understanding of Team Work

Many people contribute their efforts toward the realization of an association's goals and objectives – no one does it alone. Well developed interpersonal and communication skills are essential to effective teamwork.

Sound Judgment and Integrity

In many instances, popularity brings potential Leaders into the limelight of an association. But popularity must be tempered with good judgment and integrity. Decisions may need to be made that are not popular with the Members.

Communication and "Teaching" Skills

By virtue of their position, current leaders serve as mentors and teachers to future leaders. Enthusiasm – a zest for serving the association is an important ingredient that leaders must be able to pass along to their successors.

Ability to Subordinate Special Interests

Leaders often emerge because of their special expertise or effective representation of a specific constituency. Leadership, however, may require subordinating those interests for the greater good of the association.

Strategic Thinkers

Intuitive and interpretive skills enable leaders to understand the people around them, internalize the data they receive, recognize the relationships that exist between the systems within their world and integrate all these elements into a coherent whole.
