BOMA Education - Lunch and Learns

Lunch and Learns are offered once a month to BOMA Members at no cost. These short 1-hour sessions discuss current trends and topics and come in two types: Power Hours for Property Managers and Engineer Skills Hours for Building Engineers. Although these are the target audiences, any BOMA member can attend. Presenters are usually Industry Partners but can be Principal Members as well. They are not a sales pitch or a commercial but more of an opportunity to give information that is relevant and helpful to the target audience. Space is limited to 20 attendees per session (unless otherwise noted) so registering early is highly encouraged.

If you’re interested in presenting or would like more information about attending a Lunch and Learn session, please contact Christine Miclat at cmiclat@bomaseattle.org
