“ Being a member of LAB serves many needs for us broadcasters. It allows us to be up-to-date on issues affecting us allows us to participate in making a difference in our industry. You can become as active as you wish. It allowed me, a small radio station owner in Oak Grove, the opportunity to serve as Chairman of the Board. The cost of membership pays for itself ten times over and Polly and her staff are always there to answer any questions you might have. ”

“ Aside from the invaluable networking benefits my LAB membership has produced, I find most value in the industry updates which are regularly provided. From FCC deadline reminders, to court and commission decisions, to relevant trends in our industry. The communications I receive from LAB provides me peace of mind that I will not miss an important issue while I am focusing on growing my business. ”

“ As the commercial states: “membership has its rewards!” An accurate statement when it comes to measuring the services the Louisiana Association of Broadcasters provides its members. Given today’s environment focused on changes in technical, political, and legal issues, I cannot think of a better organization that has its pulse on these changes and shares updates with its members. ”

If you are looking to stay ahead of the game or just network with fellow broadcasters, the best investment today is membership in the LAB. ”

**George Sirven | Station Manager
KTBS-TV, Shreveport**
