

Exploring Generative AI: Resources for Pooling Professionals

Welcome to our Generative AI resource hub, designed to help pooling and JPA professionals explore this rapidly evolving technology. Here you'll find curated links to available resources, podcasts, training sites, and other educational materials to support learning and informed dialogue. Please note, the resources provided are for informational purposes only and do not represent an endorsement. As generative AI continues to advance, this collection will be updated as needed, though it may not reflect all available tools or perspectives.

Resource Library

A collection of practical tools and reference materials, including, sample policies, governance handbook, incident response plan, and procurement considerations. These resources are provided as guidance and may be adapted to fit your organization's unique needs.
