Letter from the President

CCAII’s Annual Meeting Has It All!

We are about to gather for our 2012 Annual Meeting very soon! The registration is booming and I’m excited about the opportunities to learn, interact, and enjoy time together once again. In between our Annual Meetings a lot of work goes on that continues to strengthen CCAI’s impact on the finishing industry. I have been personally impressed with the enthusiasm and obvious leadership ability of the Goyer Management staff and the CCAI Board of Directors who work to make it all happen.

If you haven’t attended a CCAI Annual Meeting, you need to register now! This is by far one of the best opportunities to improve your knowledge of our industry while having a tremendously good time. This year’s program promises to provide very interesting and educational content with a full line up of knowledgeable speakers. We will have representatives from the U.S. Department of Commerce and the National Association of Manufacturers on hand to bring us up-to-date on export initiatives for our members and the upcoming presidential election, while our own industry experts, Bob Shrouds and Matt Kirchner will present the economic update and trends of the industry to our members. Of course, that’s not all. Sprinkled in between the educational sessions we will have Beach Olympics, a tour of the Bonnet House Museum and Gardens and, of course, the Golf Tournament and Annual Awards Luncheon. Don’t miss out! Our 2012 Annual Meeting promises to deliver it all as CCAI continues to grow and become the leading association in the finishing industry. See the 2012 Annual Meeting Schedule of Events on the next page and register now at www.ccaiweb.com.

In closing, as the presidency is transitioned to Sam Woehler of George Koch Sons, I want to assure you that you have very strong officers, executive management, and Board members that work very diligently together as a team. I believe we are moving in the right direction to continue to be a relevant and valuable association for everyone involved in finishing. Thank you for the privilege of serving as your president this year. It’s been a joy to work with everyone and I can’t wait to see you in Florida!

Sherrill Stoenner
National President, CCAI
JOIN Us in Ft. Lauderdale

Don’t miss out on registering for the CCAI 2012 Annual Meeting at B Ocean Resort in Ft. Lauderdale, FL. Registration is going so well we’ve already had to add rooms to our hotel room block!

We have a great program assembled that focuses on the theme, Building a Better Finishing Industry. As always we offer engaging presentations and ideal social activities. B Ocean provides an inviting beach location with great networking opportunities. Complete programming information and meeting details can be found by visiting: www.ccaiweb.com/annualmeeting.html.

The CCAI Annual Meeting always provides relevant presentations and intriguing topics.

FABTECH 2012 Heads to Las Vegas

CCAIBFINISHING Pavilion Now the Largest Finishing Exhibition!

With each passing week, CCAI’s FINISHING Pavilion at FABTECH continues to grow. So much so, that we’ve just added exhibit space to the FINISHING Pavilion floor plan. Scheduled for November 12 – 14, 2012 at the Las Vegas Convention Center, the FINISHING Pavilion exhibit space was quickly selling out, creating the need for additional space. “In the past few weeks, we’ve had several companies expand their exhibit space,” notes Andy Goyer, CCAI’s Exhibit Manager. “With six months until the show opens, we had very little space left to sell. We have been able to expand and gain an additional 1,300 square feet to the FINISHING Pavilion. That space is already selling quickly as well.”

To date, nearly 100 companies have selected space in the FINISHING Pavilion. Many exhibitors have enlarged their booth space over the first two FINISHING Pavilions, allowing for more demonstrations of finishing products and services on the show floor. More than 25,000 visitors are expected to attend FABTECH in Las Vegas. “We look forward to an exciting show,” states Anne Goyer, CCAI Executive Director. “Our FINISHING Pavilion at FABTECH now is the largest finishing related show in North America. We know our exhibitors and members will all benefit from exhibiting in and attending FABTECH this November.

CCAI Offers Quality Programming at FABTECH Conference

The FABTECH exhibition is accompanied by an outstanding conference program that will feature 18 two-hour sessions devoted to finishing technologies, including powder coating, liquid coating, electrocoating, porcelain enamel, pretreatment and more. The majority of the finishing conference sessions will feature new presentations that will help finishers produce higher quality products while reducing costs. The complete conference program will be available in June. In addition, there will be a series of free keynote and industry panels that will be of interest to all who attend FABTECH. Watch for details coming soon.

“greening” your pretreatment?

use DuraTEC™ Zirconization™

CCAI Names Treasure Island as Headquarters Hotel

CCAI has designated Treasure Island on the Las Vegas strip as its headquarters hotel. Treasure Island is the closest hotel on the strip to the Las Vegas Convention Center that is part of the official FABTECH hotel block. Please note that the official hotel block is already more than 50% sold out. Shuttle transportation to and from the Las Vegas Convention Center will be available on show days from Treasure Island to the Convention Center and back. Anyone wishing to stay at Treasure Island should book their hotel reservation immediately. Please be aware that there are many unauthorized housing agents attempting to book rooms for FABTECH exhibitors and attendees. Often, the room rate and hotels they promise are not available. FABTECH can only assist you with housing challenges if you book through FABTECH’s official housing provider, Travel Planners. Click on HOTEL & TRAVEL on the FABTECH website for official hotel availability.

For those wishing to register for the show now, registration is open with no charge to attend the exhibition. Fees & registration information for the FINISHING Conference will be posted on the FABTECH website in June.

To register for the exhibition, visit www.fabtechexpo.com and click the REGISTER NOW button in the upper right-hand corner of the home page. Nearly 4,000 (we are gaining 1,000 a week!) individuals have registered for the show in the first month that registration was open. More than 25,000 attendees are expected to visit FABTECH in Las Vegas. Anyone who hasn’t taken space yet and wants to be part of the FINISHING Pavilion at FABTECH is urged to do so immediately. Visit www.ccaiweb.com and click FABTECH for the latest information or call Andy Goyer at 941-373-1830.
Electrocoat 2012 Review
Brad Andreae Received Prestigious Brewer Award
CCAI congratulates corporate member, Brad Andreae of Therma-Tron-X, for being honored with the prestigious George E.F. Brewer Award at Electrocoat 2012 for his outstanding contributions to the field of electrocoating technology. As President of his company, Brad led the development of new electrocoat finishing technologies for industrial electrocoaters. He has received numerous patents in part indexing and conveying. He has been an active participant in the Electrocoat Association, currently serving on the Board of Directors and has been a member of the Electrocoat Conference Steering Committee for many years. Andreae comments, “I am honored to have been chosen as the recipient of the George E.F. Brewer Award for outstanding contributions and service in the Application of Electrocoat Technology. As one of the founding members of the E-coat association and after forty years in the industry, having built hundreds of electrocoating systems, I am proud of being recognized for making significant technological advances in the field of electrocoating.”

As the future unfolds, Therma-Tron-X, remains dedicated to finding innovative solutions for our customers. I am grateful to have been part of the promotion and advancement of electrocoating.”

CCAI also exhibited at the Electrocoat Tabletop Exhibition. It was a great opportunity to meet potential members, visit with current members and gain more exposure for CCAI.

Powder Coating Consultants Offers Cost Estimator
Powder Coating Consultants is pleased to announce the launch of their new cost estimator product, Cost Gauge Pro. Nick Liberto, President of PCC, stated: “Cost Gauge Pro is an operational cost estimator that was developed using performance models used extensively in the organic finishing industry by suppliers and designers. These models, once available to only a few companies, were integrated into complete cost estimating tool by Powder Coating Consultants (PCC) for our proprietary use in client projects.”

Cost Gauge Pro is available in three versions: Powder, Liquid, or Combo (Powder & Liquid). Microsoft Excel-based Cost Gauge Pro is extremely easy to use since its operation is based on the popular spreadsheet. The product is available for purchase on the PCC website, http://powdercc.com/tools_references.html; a free Demo version is also available.

Contact PCC at (800) 97-POWDER / (203) 366-7244 / info@powdercc.com / www.powdercc.com.

Brad Andreae (center) accepts the Brewer Award at Electrocoat 2012 from Tony Cimorelli (right), Filtration & Separation Technology and Karen McGlothlin (left), Electrocoat Association is on Brad’s right.

Therma-Tron-X Unveils New Website
Therma-Tron-X, Inc. has launched a new website that went live in April, 2012. It will soon offer bilingual access in English and Spanish.

The launch of the new, modern website, which offers quick and easy access to essential information on TTX Finishing Systems, TTX Environmental systems, Coating Technologies and TTX’s company profile, is part of the company’s ongoing efforts to enhance the quality and availability of information on Therma-Tron-X’s capabilities to customers worldwide.

The website offers features such as valuable system information organized into benefits, applications and cost effectiveness categories, downloadable brochures, cut sheets and publications from TTX, photo galleries, up-to-date news from TTX and the finishing industry, and easy to use service and sales forms.

Visit www.therma-tron-x.com or www.ttxinc.com

Therma-Tron-X featured on “Manufacturing Marvels”
Therma-Tron-X, Inc. of Sturgeon Bay, WI was recently showcased on “Manufacturing Marvels™” which aired during The Neil Cavuto Program hour on May 30th. Therma-Tron-X and other manufacturing innovators across the country are featured in a two-minute “spotlight” of capability and manufacturing ability. Visit ttxinc.com/press to see the video.

“This opportunity will give us national exposure and give people a glimpse at our capabilities. We are a small town company with a global presence that creates innovative solutions for some of the world’s leading industries,” states owner Brad Andreae.

WELCOME NEW CHAPTER - IOWA/CENTRAL ILLINOIS!!
(formerly Quad Cities)

KUDOS to Tom Boland for all his hard work revitalizing the Iowa/Central Illinois (formerly Quad Cities) chapter. CCAI is very excited to see such a great group of people willing to get the chapter moving again. Their enthusiasm is contagious. Since their organizational meeting in March they’ve had 21 new members join the chapter! The kick-off event, a plant tour of John Deere Harvester Works is SOLD OUT with more than 90 registrants. They are currently working on their golf outing to be held at the end of July. We look forward to hearing about many more great events and participation from the Iowa/Central Illinois chapter.

CENTRAL STATES

On April 19, the Central States Chapter of CCAI had 22 attendees at their meeting for the presentation by Dr. Vicki Gelling from North Dakota State University on Corrosion Assessment Control. Her presentation was very good and lasted about 45 minutes but the members had so many questions for her the meeting lasted for two hours. Feedback from attendees was very positive and they felt they learned a great deal that would help them in their businesses in the finishing process. Two of the companies may even have her do some testing for them to see how they can get a better handle in controlling corrosion on their products. The Central States chapter extends their thanks to Dr. Vicki Gelling.

NORTHERN ILLINOIS

Peerless Plant Tour

The Northern Illinois Chapter of CCAI recently conducted a plant tour at Peerless-AV in Aurora, IL. Steve Jayhan, Director of Operations, hosted the tour with a PowerPoint overview of Peerless-AV followed by a tour of their complete facility. Peerless-AV is a leading designer, manufacturer and distributor of “made-in-the-USA” audio-visual solutions, selling into 28 different vertical markets worldwide. They were recently highlighted in a CBS news story about companies that are successfully bringing their aluminum casting operations back from China. Their overall manufacturing operations also includes (2) complete powder coating lines. The tour was attended by 24 people, most of them members of the Northern Illinois Chapter, including end users and suppliers.

SOUTHERN CALIFORNIA

The SoCal Chapter had a great 3rd Annual golf tournament at Eagle Glen Golf Club in Corona, California. On May 7th, 60 golfers enjoyed a warm day on the greens with a flurry of contests followed by a wonderful mesquite BBQ dinner and a huge raffle. The winners of the tournament (Mike Cravens, Peter Marrugi, Alex Marrugi, Peter Mata) finished with an incredible 10 under score. Alex Arce won the putting contest sponsored by Coral Chemical after a putt off when 2 players sunk the 50 ft. putt. Mike Fisher and Michael Salvino won the closest to the pin contests sponsored by Tiger Drylac Powder. Bobby Kelly, Jacob Medina and Ponce Sisavath won the longest drive contests sponsored by Sundial Powder Coating. While no one won the $25,000 Hole in One contest sponsored by Sundial Powder Coating, Andy Goyer was the closest at 12 feet on a very difficult hole. www.socalccai.com
TWIN CITIES
TC Paint and Powder Coating Expo Wrap up
The Twin Cities chapter enjoyed a very successful event on March 15th as many gathered for a day of exhibits and education. Over 500 people participated as attendees, exhibitors and speakers in the largest ever TC Paint and Powder Coating Expo.

Galaxy Associates offers a comprehensive line of products and services to meet all of your processing needs. Our products focus on enhancing performance while addressing the changing needs with environmental, health and safety concerns. Our dedicated support team will continually provide outstanding service to help with your processes and assist your company in becoming more profitable!

Over the years, Galaxy Associates has become known for:
- Optimum performance products
- Excellent service
- Highly-trained personnel
- Rapid order completion
- Onsite servicing
- Troubleshooting support

INDUSTRIAL GROUP OFFERINGS
Metalworking Operations
Coolants: Synthetics, Semi-synthetics, Soluble Oils, Drawing and Stamping Fluids
Process Cleaners: Cleaners / Rust Preventatives, Solvents
Rust Preventatives: Synthetic, Oil & Solvent Based

Metal Finishing Operations
Cleaners: Alkaline, Neutral and Acidic
Conversion Coatings: Iron & Zinc Phosphates, Chromates, “Nano” Technologies
Sealing Rinses: Chrome & Non-chrome Rinses

Post Treatment and Ancillary Applications
Paint Detackification: Detackifiers, Flocculents, Defoamers
Specialty Coatings: Peelable & Barrier Coatings
Paint Strippers: Aqueous and Solvent Based
General Maintenance: Floor Cleaners, Machine Cleaners

Lou-Rich Plant Tour
On April 19th the Twin Cities Chapter sponsored another successful plant tour. More than 40 finishing people attended a tour of Lou-Rich Contract Engineering and Manufacturing located in Albert Lea, MN. Those in attendance learned of the unique Lou-Rich capabilities of OEM, custom engineering and fabrication services, product extrusions and a paint & powder production line.

Plant Manager John Bills offered a presentation detailing the products manufactured, the various work cells and the different racking configurations utilized in the plant. After the presentation, the tour attendees were assembled into four groups and had the opportunity to tour the factory floor including a newer paint & powder line operation, multiple robot welding/assembly lines, unique machining centers and the overall material handling system. Thanks to the Lou-Rich Team for hosting the Twin Cities chapter.

Visit www.ccatc.com for more photos and chapter information.
Chapter Happenings

WEST MICHIGAN
Basic Finishing For Profit Seminar
The CCAI West Michigan Chapter held “The Basic Finishing for Profit” Seminar on May 15 at the M-Tec Center in Grand Rapids. 30 attendees came out to hear presentations on material handling/racking, pretreatment, powder coat materials and application and an industrial ovens segment. There were five industry speakers on hand to present the topics to an attentive audience and answer questions as well. Attendees ranged from job shops to vendors. “I thought it was a valuable seminar and I got a lot from the questions and answers too”, said Bob Rabe, owner of Coatings Plus in Grand Rapids, Michigan.

Bruce Bryan, Mighty Hook presenting his section of the Basic Finishing seminar to the West Michigan chapter.

The panel of seminar speakers includes: (L to R) Dave Roberts with Rapid Engineering, Bruce Bryan with Mighty Hook, Dale Mulder with ChemQuest, Dominic Gradozzi with Akzo Nobel, and Mike Riley with Nordson.

WISCONSIN
Mercury Marine Plant Tour
Sixty-four attendees took the Wisconsin chapter plant tour at the Mercury Marine facility. The tour featured their new robotic powder coating system. Over the past 12 months Mercury Marine has reconstructed 2 paint lines including a new robotics powder paint system. The plant also added the manufacturing of 3 different products, including the conversion of engine blocks for marine use and the production of 2 inboard engine-out drives. The tour was followed by a dinner and a great chance to network and socialize.

The Mercury Marine tour guides (L to R) - Matt Diker, Jim Steffes, Mike Lenz and Chris Shepro (missing John King and Rick Boynton). Thanks for a great tour!

Custom Coater Membership
$150 or $300 per year depending on company size
Membership in the Custom Coater category is designed to connect people searching for custom coating services with a Custom Coater. You will receive calls from our 800 line from people requiring Custom Coater services, you'll be listed in a section of the Annual Membership Directory devoted solely to Custom Coaters with the services you supply and you may appoint one representative that will receive individual membership privileges. Additional representatives from a Custom Coater Member must become Individual Members to receive privileges.

Corporate Membership
There are three levels of Corporate Membership:
• Standard - $1,495 per year
• Gold - $1,950 per year
• Platinum - $2,450 per year

Visit www.caiweb.com/membership_becomemember.html to review all the benefits of Corporate Membership!

NOTE: All included memberships are good for one year. No rebates or credits will be issued for undesignated memberships. Additional representatives from any corporate membership level must become individual members to receive membership privileges.
