The Sizzling Summer

Here we are in the hot days of summer and that means we are now halfway through another year. But this year has been anything but the same old, same old. This has been a record setting year! It all began with the extremely strong start of our new West Coast chapters and their great chapter programming, which led to new membership support.

In June, we had our annual meeting at Mt. Hood in Portland, Oregon. Wow, what a meeting! We had record high attendance with a lot of first timers from all over the country. It sure was nice to meet and talk to everyone. Everyone had a very good time and of course, the views were terrific and the weather close to perfect.

I know each year we say the programming was the greatest so far, but this year it really was the greatest. You know when a meeting goes this well, it has to have been organized by the tremendous efforts of Anne and Andy Goyer and the entire CCAI/Goyer Management staff. A big hoorah to them and a heartfelt thanks for all the hard work everyone put into this meeting. Good luck to Anne topping this one next year.

Speaking of next year, the 2012 annual meeting will be in Ft. Lauderdale, Florida at B Ocean. We will trade the beautiful mountain view for the sand and sun at the beach. Make your plans now to attend next year’s annual meeting and learn what is happening in the world of finishing.

As we head into the second half of the year we are gearing up for another great FABTECH show. This November we’ll be at McCormick Place in Chicago, an area rich with industry members.

This will be our second year to sponsor the Finishing Pavilion. I don’t know quite how to explain how well the show is progressing, but we are WAY ahead of last year with exhibitor participation and continue to add more every week. It’s going to be a huge show with something for everyone. You don’t want to miss it – if you’re not exhibiting, you must attend. Register now and be one of the many who have pre-registered to the greatest finishing show you can attend. The pre-registration is far ahead of last year’s, and even two years ago for the Chicago show. FABTECH 2011 is going to be record setting for sure.

No matter if you are an attendee or an exhibitor, there is no better show that you can attend and spend four days networking with the best of the finishing industry, or see more suppliers who can handle all your finishing needs. I look forward to seeing everyone at the show. Don’t forget to stop by the CCAI Booth to see all the wonderful opportunities that CCAI can offer!

So, as the sizzle of the hot summer leaves us, plan on coming to Chicago in November for FABTECH 2011. It promises to be a terrific show. See you all there!

CCAI National President

Sherrill Stoenner
The CCAI Annual Meeting brought members to beautiful Mt. Hood, Oregon. Along with the breath-taking views, attendees were educated and entertained with a program full of technical information and social outings that everyone enjoyed. It was definitely a huge success. “This was our most successful Annual Meeting ever,” commented CCAI Executive Director Anne Goyer. “The content of our program received the highest evaluation marks of any previous meeting, we attracted more first-timers to this year’s event and we also had more members attend this year’s Annual Meeting than any in the past.” To view the presentations for the Annual Meeting go to the MEMBERS ONLY section of the CCAI website, www.ccaiweb.com.
1) (L to R) CCAI Executive Director, Anne Goyer welcomes Scott Rempala, Mighty Hook and Aleida and Les Williams, Nu-Way Industries. 2) The putting contest brought out the competitor in everyone! 3) What a crew. 4) Bob Warren, Jeff Watson and Scott Rempala team up for game night on the green. 5) (L to R) Pam McCordle, Todd and Amanda Luciano, Jim Andrews and Jim Docken putt their way to the finish. 6) US Park Service Ranger, Jerry Prescott gave attendees the history of Timberline Lodge. 7) A LOT of networking during the Welcome Reception. 8) Gordie Gardiner and Kathy Brogan enjoy a seat by the fireplace after the tour of Timberline Lodge. 9) Brian and Laura Rozdilsky pose before heading to roast marshmallows. 10) Vicki Gelling delivers her presentation on assessment standards. 11) (L to R) Ron Lum with Anjuli and Shivie Dhillon, representing the Southern California chapter. 12) Mt. Hood, a breathtaking backdrop for the CCAI Annual Meeting. 13) Croquet is serious business to these members.
CCAII Annual Awards

CCAII Annual Awards

CCAII announced Tom McCardle as the first posthumous winner of its highest honor, The James F. Wright Lifetime Achievement award. Tom’s award was accepted by his son, Dennis McCardle of Kolene Corporation, Dennis’s wife Pam, Tom’s son-in-law John Cole of Parker Ionics, and longtime colleague Jim Malloy of Kolene. “My family is truly touched that CCAII has given its highest award to my dad,” says Dennis McCardle. “I am fortunate to be able to work at a company where I am reminded of his talents and influences every day. When we presented the award to my mother, my brother and sister and I knew it would be very emotional. She wished you could have been there to share in our celebration as my father would have been very proud of this award. Dad was always thinking so far ahead; I am sure he would be thrilled at how far CCAII has come, but I truly think he saw what it could be. Thank you again for this wonderful honor of my father and his work.”

In addition to the Lifetime Achievement Award, the Chapter User and Supplier of the Year awards were presented to the members that were present. Chapters recognize a User and Supplier member for their year-long service and dedication to their respective Chapter.

The 2010 -2011 Chapter Award winners are: Nathan Finney, IHD Powder Coating Services and Neil Walker, Diamond Vogel Paint, Central States Chapter; Les Williams, Nu-Way Industries, and Joe Laubenthal, Wagner Industrial Solutions, Northern Illinois Chapter; Bernie Walz, Hoffman Enclosures Inc. and Scott Berg, Berg Industrial Sales, Twin Cities Chapter; Rapid Engineering, (company award) and Jeff Pfost, Environmental Partners, West Michigan Chapter; John Heyer, Kettle Moraine Coatings and Rich Ulrich, Northern Coatings & Chemical, Wisconsin Chapter Shivie Dhillon, Sundial Powder Coating and Bob Kelly, Parker Ionics, Northern Coatings, Southern California Chapter and Ty Crowder, Finishing Consultants, Portland Chapter.
By now we hope you are aware that CCAI is sponsoring the FINISHING Pavilion & Conference in Chicago from November 14 – 17 at McCormick Place. When CCAI made the decision to develop a long-term partnership with FABTECH two years ago, we did so because we wanted to offer more to our members and the finishing industry during their visit to an annual show and conference. With numerous employees now wearing many hats, we realize several things. First, chances are you are now responsible for finishing as well as other manufacturing operations in your plant. Second, we know that time and getting the best return on your trade show investment is critical to you. We know companies no longer permit employees to attend two or three trade shows each year. You have to go where you can see the most products and services that are relevant to your operations. That’s why FABTECH makes sense.

CCAI’s FINISHING Pavilion is now the largest trade show floor forfinishers in North America. With an anticipated 130 – 140 exhibiting companies showcasing the latest in paint, powder coating, plating, pretreatment and more, our FINISHING Pavilion will allow you to see more products and services for industrial finishers than anywhere else. Check out our current list of exhibitors and we think you’ll agree that FABTECH is the show you need to visit this November.

Exhibitor List as of Aug. 31, 2011

VISIT WWW.FABTECHEXPO.COM TO VIEW THE MORE THAN 1,200 EXHIBITORS YOU CAN VISIT AT THE SHOW!

REGISTRATION INFORMATION

CCAI MEMBER DISCOUNTS FOR CONFERENCE SESSIONS

CCAI members are entitled to a significant discount on conference registrations. First, CCAI members are entitled to an EARLY BIRD Member Discount that provides a 10% savings off the regular conference fees that go into effect after Sept. 23.

Next, by entering PROMOTION CODE: GPSEXSP during the registration process, CCAI members will receive an additional 15% on conference fees because CCAI is an exhibiting company!

Review the EDUCATIONAL PROGRAM brochure enclosed and register prior to September 23 to receive these special member discounts. Promotion Code GPSEXSP will still provide 15% off fees after that date but the 10% early bird discount will be discontinued.

FREE EXHIBITION ONLY REGISTRATION

You can register for the show only for FREE by entering Priority Code: FB13 when you register on-line.

TO REGISTER: www.fabtechexpo.com

FABTECH FREE SPECIAL EVENTS

CCAI SCORECARD GAME, All Week Long

Make your visit to the CCAI FINISHING PAVILION a little more fun. Play the CCAI Scorecard Game in CCAI’s Booth 3949 and become eligible to win our Tube Dude. Just visit 15 CCAI Corporate member booths on the show floor and you’ll be eligible!

STATE OF THE INDUSTRY:

Executive Outlook, Monday, Nov. 14, 12:30 PM

Don’t miss industry executives, including DuPont Powder Coatings president, Dave Lazzeri, as they discuss their views on the current state of the industry and trends that are shaping the manufacturing future.

HAPPY HOUR Monday, Nov. 14, 4:00 – 6:00 PM

Mix & mingle with attendees and exhibitors on the show floor the last two hours of the day. Complimentary drink ticket included with show badge.

BUYER APPRECIATION DAY Thursday, Nov. 14

The last day of the show has been designated “Buyer’s Appreciation Day!” You can take advantage of Exhibitor Show Specials and win some great prizes and products from exhibitors and show management.

See FABTECH Conference Brochure Included in this Mailing for Details and Schedule of All Conference Sessions! Register Today!
IT’S ALL HERE. Discover the most innovative technologies, resources and ideas. Engage with industry experts. Find solutions to improve productivity and keep your business competitive.

New Custom Coater Members

Lou-Rich Inc.
505 W. Front St., Albert Lea, MN 56007
507-377-8910 • www.lou-rich.com
Lou-Rich offers service across the entire product spectrum: mechanical assembly services, medical device contract manufacturing, lean manufacturing solutions and custom aluminum extrusions to name a few. Their extensive engineering and manufacturing resources are dedicated to a Product Realization Platform tailored to the needs of their customers. In today’s global economy, time to market is critical. OEMs oftentimes miss opportunities due to shortages of engineering and manufacturing resources. The solution for many companies is to rely on Lou-Rich to engineer and manufacture products, allowing OEMs to focus on their core competencies of R&D, marketing, sales, and customer service. Check out their website to see what they have to offer, www.lou-rich.com.

DeWys Manufacturing
15300 8th Avenue, Marne, MI 49435
616-677-5281 • www.dewysmfg.com
DeWys Manufacturing (pronounced De-Wise) recognizes the importance of continuous growth. The need for continuous growth and, more importantly, their customers, are the reasons they have expanded their capabilities. Instead of completing some of the work and sending components on to others to be finished, they wanted to be involved with the entire production process. DeWys Manufacturing developed a “Circle of Companies” that can deliver completed products directly to their customers. The Circle of Companies includes precision sheet metal fabrication, powder coating, stamping, assembly, machining, and DeWys International. They understand the significance of diversity and the way it reduces complication. By becoming a one-stop shop, DeWys made things easier for their customers. They will no longer have the hassle of searching for more than one company to complete a single job. Instead, they can rely on DeWys Manufacturing to accomplish every task with the highest quality standards in the most efficient manner.

Intellifinishing is a turnkey finishing systems provider. Our systems:
- Decrease floor space usage by 30%
- Require no batching. Recipe-based
- Move parts forward and backward
- Reduce costs up to 49%

**MIGHTY HOOK**

**Mighty Hook**
1017 N. Cicero Ave., Chicago, IL 60651
773-378-1909 • www.mightyhook.com

Mighty Hook, Inc. offers one of the largest and most diverse lines of hanging and masking products in North America. Mighty Hook’s management and engineering team, with decades of experience in the coating industry, works with its customers to identify inefficiencies and provide engineered solutions to turn those inefficiencies into productivity opportunities. With an industry leading customer service team and state of the art engineering, design and manufacturing capabilities, Mighty Hook is the complete strategic supplier for the industrial coatings market. With the acquisition of MHF Industries (formerly Flur International) and AP Conveyor Corp., Mighty Hook is now the only fully integrated “below the conveyor” hanging and masking company in North America.

**Corporate Member News**

**EISENMANN**

**Eisenmann Acquires Hightec Group**

EISENMANN recently acquired China-based, Hightec Group, an international surface finishing company with sites in Shanghai, Kunshan and Fuzhou. “Together with Hightec, we can increase our presence in the Asian market, and offer our made-to-measure system solutions to Asian customers more efficiently and effectively” said Dr. Matthias von Krauland, Chairman of EISENMANN’s Executive Board.

With the acquisition, EISENMANN now has more than 250 highly-qualified employees in China with outstanding knowledge and skills in finishing technology. The Hightec Group’s extensive manufacturing capability will broaden EISENMANN’s local portfolio and enhance customer service. Visit their website for more information, www.eisenmann.us.com.

**IN MEMORIAM**

**Tom Grady**

Sherwin-Williams executive Thomas Grady, died on July 19 at age 45. Tom was often a speaker at CCAI’s finishing conferences and respected among his industry peers. Grady joined Sherwin-Williams following the company’s Pratt and Lambert acquisition and evolved into liquid and ultimately into the Metal Building Products group. He was instrumental in getting the company’s Kynar coatings into the field through testing and the approval process. Grady is survived by his wife, Jane, and daughters Elizabeth and Kaitlyn. The members and staff of CCAI extend deepest sympathies to the family of Tom Grady.
Industry News & Moves

ECOAT 2012
April 11-12, 2012
Rosen Centre Hotel, Orlando, FL

Electrocoat 2012 is sponsored by the Electrocoat Association and Products Finishing magazine.

Industry Moves

Scott Bultman, Vice President of the CCAI West Michigan Chapter has joined Van Dyken Mechanical, Inc. as a Service Sales Specialist. Van Dyken is a privately owned industrial mechanical contractor located in Grandville, Michigan. Van Dyken also owns/operates Grand Valley Automation, a midwest leader in building digital control systems and energy management. Van Dyken includes industrial giants such as Steelcase, Amway, and Perrigo as long term repeat customers. Scott will concentrate on the recruitment of new industrial heating/cooling/ventilation service accounts and preventative maintenance agreements. He will also perform many educational speeches to business groups on energy savings and energy management ideas for industrial facilities. Scott has 30 years of industrial contracting experience and has been on the West Michigan Chapter board for almost 20 years. He won the chapter Vendor/Supplier of the Year in 1996 and 2010.

THE KMI MISSION is to engineer, design and build paint and porcelain enamel finishing systems at a reasonable cost and within the project schedule. These systems must be reliable, environmentally friendly, require low maintenance and low operating cost and produce high quality finishes. Our commitment to customers doesn’t end with the system. We continue relationships with ongoing technical support and assistance after start up. We achieve customer satisfaction so consistently that our customers insist on becoming repeat customers!
Chapter Happenings

KANSAS CITY/CENTRAL STATES
The chapter golf outing was held August 16th at the Meadowbrook Golf and Country Club after being postponed due to rain. There were 24 golfers on the course to enjoy the day.

NORTHERN ILLINOIS
The Northern Illinois chapter enjoyed a luncheon and plant tour hosted by Folding Guard on May 26, 2011. Folding Guard is a 168,000 sq. ft. facility that uses the Kan Ban Inventory Pull System with Bar Coding, robotic welding cells, and an automated powder coating process that includes a three stage alkaline cleaner/phosphate pretreatment process, convection dry-off oven, reclaim powder coating booth, combination gas infrared and convection cure oven and enclosed track monorail conveyor system. The company prides themselves on having the following five qualities that make them stand out; great products, custom solutions, free design service, CAD equipped design team and a nationwide dealer network. The event was well attended and everyone found it to be very informative.

SOUTHERN CALIFORNIA
Check out the chapter website! www.socalccai.com
2nd Annual Golf Tournament
On warm and windy May 9th, 56 people braved the hilly course at the Hidden Valley Golf Club in Norco, CA. The winning foursome of Bobby Kelly, Jacob Medina, Mike Fisher and Blake Kelly scored a 63, barely beating the 2nd place team by 2 strokes. Longest drive for the women was won by Ponce Sisavath, and the men by Mike Fisher. Closest to the pin was won by Terry Housner on hole 8 and Fred Palmerino on hole 13. The longest putt contest was won by Jacob Medina putting it within 2 inches of the hole. The day ended with dinner and a huge fund raising raffle. Everyone had a great time.

Powder Gun and Compressed Air Seminar
On July 28th Parker Ionics, Nordson, Wagner, and ITW Gema presented their latest powder gun technology with both hands-on and classroom presentations. The group was treated to a delicious catered lunch then a presentation by Accessorie Air on the ins and outs of compressed air and a variety of equipment options. After the presentations, attendees were given the opportunity to tryout the powder equipment and the guns.

Central States board member and golf chair, Ron Cudzilo of George Koch Sons, checks golfers in for the outing.
Doug Oliphant of IntelliFinishing hits a nice shot out of the sand trap.
The winning team, headed up by Jim Archer of RMF Powder Coating Services (center) enjoyed beautiful weather for their win.

The winning foursome

John Sudges presents appreciation plaque to J.D. Lipa of Folding Guard, for opening up their plant and providing a tour of the facility.

Loren Keene of Wagner Industrial Solutions gives a hands-on presentation.
The Texas Chapter toured Western Extrusions on July 14. Western Extrusions is a privately owned, turnkey resource for the residential and commercial building and construction, transportation, consumer durables, distribution, and electrical markets. Since 1979 customers all over the U.S. have depended on Western Extrusions for their extrusion, finishing and fabrication needs. At their 700,000 sq. ft. facility on 65 acres in Carrollton, Texas, they are committed to leading edge technology with old fashioned, superior service and quality. Our special thanks go to Jeff Miller and Western Extrusions for opening their facility.

The Twin Cities Chapter held its annual Golf Classic at The Links at Northfork Golf Course in Ramsey, MN. 116 participants enjoyed the day followed by dinner and the event awards. Team Awards went to 1st place, JIT Powder Coatings; 2nd place, Sierra and 3rd place, Preferred Powder Coating. A number of other prizes were awarded for golf accomplishments and raffle winners. Over $800.00 was raised from raffle ticket sales with the money going to the CCAI Scholarship Fund.

A special event took place during the award presentations when TC board member Mike Nugent was presented a plaque recognizing his many years of service to both the Twin City CCAI Chapter and the National CCAI. Anne and Andy Goyer attended the Golf Classic and extended their appreciation for Mike’s commitment to CCAI. After a number of years in the industrial finishing industry Mike has changed employment outside of our industry.

The Twin Cities Chapter and the Minnesota Technical Assistance Program (MnTAP) at the University of Minnesota are hosting the 8th Minnesota Paint and Powder Coating Expo on Thursday, March 15, 2012, at Century College in White Bear Lake, Minnesota (near St. Paul). The Expo will include a vendor show, hands-on demonstrations and technical seminars. At the last expo, over 400 participants attended the 15 technical seminars and a vendor show featuring over 50 exhibits.

Call for Papers - The Expo is seeking people to present on topics related to metal finishing. Suggested topics include, but are not limited to, new technologies/processes, cleaning pretreatment, cost savings, energy use reduction, environmental issues, and case studies. Abstracts of 250 words or less must be received by October 7, 2011.
Galaxy Associates offers a comprehensive line of products and services to meet all of your processing needs. Our products focus on enhancing performance while addressing the changing needs with environmental, health and safety concerns. Our dedicated support team will continually provide outstanding service to help with your processes and assist your company in becoming more profitable!

Over the years, Galaxy Associates has become known for:

- Optimum performance products
- Excellent service
- Highly-trained personnel
- Rapid order completion
- Onsite servicing
- Troubleshooting support

INDUSTRIAL GROUP OFFERINGS

**Metalworking Operations**

- Coolants: Synthetics, Semi-synthetics, Soluble Oils, Drawing and Stamping Fluids
- Process Cleaners: Cleaners / Rust Preventatives, Solvents
- Rust Preventatives: Synthetic, Oil & Solvent Based

**Metal Finishing Operations**

- Cleaners: Alkaline, Neutral and Acidic
- Conversion Coatings: Iron & Zinc Phosphates, Chromates, “Nano” Technologies
- Sealing Rinses: Chrome & Non-chrome Rinses

**Post Treatment and Ancillary Applications**

- Paint Detackification: Detackifiers, Flocculents, Deloamers
- Specialty Coatings: Peelable & Barrier Coatings
- Paint Strippers: Aqueous and Solvent Based
- General Maintenance: Floor Cleaners, Machine Cleaners
