

CCAI FINISHING EDUCATION FOUNDATION NEWS

CCAI FEF Board of Directors Selects Matt Heuertz Scholarship Recipients

The 2023 Matt Heuertz Scholarship recipients have been chosen by the CCAI FEF Board of Directors. The Board selected Jordan Clabaugh as the recipient of the 2023 Jim Gallagher Award which is given to the highest scoring applicant.

“The Matt Heuertz Scholarship Program is an important part of our ongoing efforts to engage young talent and educate them on the many careers in industrial finishing. By receiving financial support, scholarship recipients are better able to continue their academic pursuits in areas that have a connection to finishing. And, the one-year student membership to CCAI, provided along with the financial award, presents an opportunity for further education about the finishing industry, networking, internships, and more,” notes CCAI FEF Executive Director Sheila LaMothe. “We are excited to support the academic endeavors of these seven promising students. They are well deserving of the scholarships and have bright futures ahead of them.”

The application period for the 2024 scholarship program will open in January.

Additional 2023 Matt Heuertz Scholarship recipients include:

Jordan Clabaugh
Aerospace Engineering
Iowa State University
Jim Gallagher Award Recipient

CONTINUING COLLEGE/UNIVERSITY STUDENTS

Scott Andreae
Engineering
Technology
University of
Wisconsin – Stout

Madeline Kehoe
Materials Science &
Engineering
Michigan Technological
University

Daniel Knecht
Environmental
Engineering
University of Cincinnati

Mary Schilling
Chemical Engineering
University of
Wisconsin – Madison

INCOMING COLLEGE/UNIVERSITY FRESHMEN

Megan Kokesh
Industrial Design
University of
Wisconsin – Stout

Broke Strege
Engineering
University of
Wisconsin – Madison
