Physical therapists are deeply committed to patient care in the areas of rehabilitation, human movement and function, mobility, wellness, fitness and overall health.

Physical therapists uphold the highest standards of professional conduct in respecting the rights, knowledge and skills of colleagues and other healthcare professionals and seek consultation whenever the welfare of the patient may be advanced.

Physical therapists apply the rigorous hands-on training and skills gained through years of education and continuing education in all aspects of physical therapy practice.

Patients Count On Physical Therapists As An Important Member Of Their Healthcare Team.

California Physical Therapists Put Patients First
SAFE. COMPASSIONATE. COMPETENT CARE.
California Physical Therapists are Educated at the Highest Academic Levels
