

Grace Eagan

Owner Craft Haus

Palm Beach Gardens, FL

Hey everyone! Thank you so much for voting for me for the CCSA BOD! I'm incredibly honored and excited for the opportunity to give back to a community of people who have helped me through the first few years of owning my own pyop studio!

My studio Craft Haus is located in Palm Beach Gardens, FL but I myself was born and raised in Texas. I started working for the store in 2012 and jumped at the opportunity to purchase with a business partner in 2014 at the age of 22, when the previous owner was looking to sell. Growing up as a middle child of seven children I loved the idea of running a business that centered around families spending quality time together. I knew without hesitation that this is what I wanted to pursue and honest to god, I had no idea what I was getting myself into. It was an 11 year old business at the time that needed some work. In the first year we rebranded the business and made a large effort to create brand awareness, organized the studio and put systems in place. Unfortunately after the first year my business partner and I decided to go separate ways. It was a tough transition and learning curve because she was extremely knowledgeable in the pyop field, hard working and had many years of experience. I myself was still learning. In came the CCSA! I don't know what I would have done without the help and support of so many members that were more than happy to share their experiences. I've made many mistakes, but have learned more than I could have possibly imagined through other members and the CCSA.

I still have so much to learn but am excited to represent the newer studio owner! If you have any questions or would like to chat feel free to reach out!
