Centered Riding® Inc. Symposium 2015 Report

The symposium committee looks back on a very intensive and successful 2015 CR symposium.

The symposium was well attended with at its peak (the Saturday evening show) around 260 participants. The clinics, lectures and workshops were very well appreciated by the participants, as well as the tai-chi lessons in the mornings and the 1-on-1 mini Alexander Technique sessions that were offered all throughout the days.

With the help of Marie, we sent out an evaluation questionnaire, which shows that overall, the symposium was very well liked, and especially the mix of different activities to choose from was rated as a positive factor. The respondents all agreed that the various lectures and demo's connected very well with the "Centered and Beyond" theme.

Looking at the comments of the participants during the clinic and of the respondents of the questionnaire, we feel confident that the 2015 CR symposium has been an event that will be remembered as a very positive, inspiring and educational networking opportunity for all who were present.

Of course we could not have done it without the help of all our volunteers and committee members. It is fantastic how many people (also from outside CR) have offered help to make this event run smoothly. Most of those volunteers are now enthusiastic CR fans too!
