CONTINUING EDUCATION

Today's Chiropractor on the Witness
Stand: Presenting and Defending
Treatment of Acute and Chronic Injuries

**Richard Adler, JD
and Dan Murphy,
DC, DABCO**
(pictured left to right)

Sponsored by Adler
Giersch, Nutriwest
Pacific and Erchonia

Friday • 8:00 - 10:00am (Part I)

Friday • 10:30am - 12:30pm (Part II)

Friday • 2:00 - 4:00pm (Part III)

Friday • 4:30 - 6:30pm (Part IV)

Doctors are trained to treat patients, not testify in court. But oftentimes, that's exactly what you're called upon to do. In this program, Dr. Dan Murphy will discuss treating both acute and chronic injuries, with a focus on treating inflammation. Along with him will be attorney, Richard Adler, who will lead mock deposition and trial examinations of Dr. Murphy, demonstrating the skills you need to be an effective expert witness, and the tactics defense attorneys will use to attack your authority on the subject matter. **8 CEs**

Richard Adler, JD is the founding principal for the law offices of Adler Giersch PS. He and all attorneys at the firm are exclusively dedicated to representing clients with traumatic injuries (brain, spinal cord, musculoskeletal) by providing tough advocacy and compassionate for clients. The firm has achieved the highest rating for its legal abilities, expertise, integrity, experience and professional excellence in the area of personal injury law as determined and rated by other attorneys in the Washington State. In addition to his distinguished practice, Richard has served as President of the Brain Injury Association-Washington (BIAWA) for five years, and now serves as the Chair of the Executive Committee to ensure that BIAWA implements its mission of preventing, educating, providing support and advocating for survivors of traumatic brain injury and their caregivers. Richard graduated in 1980 from Georgetown University Law Center, cum laude.

Dan Murphy, DC, DABCO, graduated magna cum laude from Western States Chiropractic College in 1978, and has more than 36 years of practice experience. He received his Diplomate in Chiropractic Orthopedics in 1986. Since 1982, Dr. Murphy has served as part-time undergraduate faculty at Life Chiropractic College West, where he is currently teaching classes to seniors in the Management of Spinal Disorders.

Reboot Your Practice

Kim Klapp

Friday • 8:00 - 10:00am
(Morning Option)

Friday • 2:00 - 4:00pm
(Afternoon Option)

Kim Klapp will present a high-intensity session for CAs to help them become empowered to make a difference in your practice and community. Your team will learn the most up-to-date strategies for getting more of what you want in your office: referrals, retention, collections and compliance. The success systems that Kim teaches will help your CAs attract more new patients, connect better to your existing patients and provide exceptional service. Your team will be excited about helping to build your practice, rather than viewing it as more work, getting overwhelmed by change, and becoming stressed out. Join Kim to find out the fun way to reach higher levels of excellence. *This program is for the entire clinical team. Although CAs are the primary audience, your clinical will derive the greatest benefit if DCs also attend.* **2 CEs**

While managing First Choice Chiropractic since 1995, Kim Klapp has spoken for LifeVision, ChiroEurope, Parker, Master's Circle, Five Star and numerous state associations. An author and coach, she founded Assistants for Chiropractic Excellence (A.C.E.) in 2000 which provides quality CA coaching and team training via monthly online courses. Kim teaches chiropractic teams the most up-to-date techniques and communication strategies for generating more referrals, collections and patient compliance.

NW Chiropractic Equipment
Sales & Repair
Adjusting Suite

Friday • 10:00am - 6:30pm

A quiet getaway from the high energy of the conference where all DCs are welcome to adjust, get adjusted, or simply check out the variety of tables and other equipment that will be available for their use throughout the day.

Forensic Audits: Dissecting Your Records

Ces Soyring

Friday • 10:30am - 12:30pm
(Morning Option)

Friday • 4:30 - 6:30pm
(Afternoon Option)

Self auditing and monitoring are important tools to hone your compliance program. Self audits minimize third party payers' reviews and help you avoid one of the compliance risks identified by the OIG. Practice management firms and consultants command top-dollar fees for implementing these programs in your practice, but you and your staff can easily administer the whole process in-house by following a few basic steps and making these audits part of your routine. This can potentially save you tens of thousands of dollars in fees and penalties, and help you get your claims paid more easily. Chiropractors are welcome in this course, but it is designed for everyone in your clinic. Don't let your staff miss this! Morning and afternoon options are both available. **2 CEs**

Ces Soyring is well known as a speaker and consultant in the chiropractic community. Her expertise in administrative and insurance issues is unsurpassed. She is a published author and writes a weekly newsletter for the chiropractic profession. Ces has been a speaker at the Texas Chiropractic Association's (TCA) annual Mid-Winter and various States' Conventions, the Texas Chiropractic College's (TCC) Homecoming, and CA conventions for the past several years. Over the past 34 years, Ces has been at the forefront of pioneering inroads for chiropractic assistants.

Lunch

Friday • 12:30 - 2:00 pm

Join the Exhibitors in the tradeshow hall for an informal lunch, networking, discussion, and more.

**Alumni luncheons hosted by chiropractic colleges will also take place at this time. Check the online schedule for updates as they are confirmed.*

Showcase Presentations

Representatives of CE-qualified Exhibitors

Friday • 6:30 - 9:00 pm

Join WSCA's corporate partners for a reception featuring light hors d'oeuvres, buffet dinner, a bar, and CE-qualified presentations by vendors to prepare you for the tradeshow and get a jump on your exhibitor CEs. Speakers will take the stage, giving brief, rapid fire presentations similar to an Ignite Forum or a TED Talk. Attendees earn credit, get a meal, and a great opportunity to network and relax with friends. **2.5 CEs**

NW Chiropractic Equipment Sales & Repair Adjusting Suite

Saturday • 7:30am - 1:00pm

A quiet getaway from the high energy of the conference where all DCs are welcome to adjust, get adjusted, or simply check out the variety of tables and other equipment that will be available for their use throughout the day.

L&I Approved Independent Medical Examiner's Seminar

Dennis Austin, DC (not pictured),
Les White, DC, Ron Wilcox, DC,
and Morgan Young, DC
(pictured left to right)

Saturday • 8:30am - 10:30am (Part I)

Saturday • 11:00am - 1:00pm (Part II)

Saturday • 2:30pm - 4:30pm (Part III)

Saturday • 5:00pm - 7:00pm (Part IV)

The WSCA, in partnership with the Industrial Insurance Chiropractic Advisory Committee of the Department of Labor and Industries, presents an 8 CE seminar on Independent Medical Examinations. This seminar is open to all interested parties, but is required for those who want to become L&I approved examiners. **8 CEs**

Dr. Dennis Austin graduated from the University of Miami in 1969 majoring in biology and chemistry. He attended Palmer Chiropractic College, graduating in 1974, *summa cum laude*. He has been in private practice in Tacoma since 1975, and has been an approved chiropractic consultant since 1980. In 1991, Dr. Austin completed the program in Chiropractic Orthopedics from Western States Chiropractic College. In 1993 he was appointed as one of the internal chiropractic consultants attached to the office of the medical director for the Department of Labor and Industries. He has presented numerous seminars, including the labor and industries consultants program and rating examiners program. He has been an approved rating examiner since 1995. Over the past couple of years he has also worked at American Lake Veteran's Hospital as a chiropractor attached to their rehabilitation services.

Dr. Leslie B. White graduated from Palmer College of Chiropractic in 1967 and has been in private practice in Burien, WA for the past 50 years. He received diplomat status in Chiropractic Orthopedics in 1983 from Western States Chiropractic College and is an approved chiropractic consultant and an approved examiner for the Department of Labor and Industries. He has been an internal chiropractic consultant to the Department of Labor and Industries since 1988.

Dr. Ron Wilcox became a chiropractic consultant for the department of Labor and Industries in 1995. Two years later, he took the chiropractic-approved examiners course to become an Approved Examiner for the department. Since that time, Dr Wilcox has been providing second opinion consults for local area chiropractors on their injured workers and rating or closing examinations for the department. In 2004 he applied for the Chiropractic Advisory Committee, as it was known at the time, and has been the chair of Provider Education and Outreach subcommittee since. He is also the Vice-Chair of the Advisory Committee on Healthcare Innovation and Evaluation (ACHIEV) for the Department of LNI.

Dr. Morgan Young is the Associate Medical Director for Chiropractic at the State of Washington Department of Labor & Industries. Morgan is a rural Western Washington native and UW alumni. He spent his formative chiropractic years in Silicon Valley at Palmer College of Chiropractic West and eight years of multidisciplinary practice at Cisco Systems. His practice experience includes contracted work in Occupational Medicine at Kaiser Permanente and Corporate Onsite healthcare for the Stanford School of Medicine. Morgan's 10 years at Palmer West included research and lecturing across anatomy, diagnosis, evidence-based practices and integrated care. The Palmer Center for Chiropractic Research brought him opportunities to collaborate on 20+ publications with authors and colleges around the world. He is happy to be back home in Washington and looking forward to helping the state's injured workers return to work happy and healthy!

CONTINUING EDUCATION

Current Evidence-Based Approach to Diagnosis, Triage, and Clinical Chiropractic Management of Common Lumbar Spine Conditions

Anthony Lisi, DC

Saturday • 8:30 - 10:30am

This session presents a detailed review of the current evidence on common lumbar spine pathological conditions, clinical assessment and triage, and guidelines for clinical practice. Material will include a review of lumbar spine disease and effect on pain generators such as intervertebral disc, facet joints, and musculature. The presentation will also address current highest-level recommendations for clinical assessment, testing indications, triage, treatment planning, and collaborative case management. This is advanced level content aimed at a target audience of chiropractic clinicians who manage patients with lumbar spine complaints. **2 CEs**

**L&I attendees will receive a free link after the conference to access a video recording of Dr. Lisi's presentation and its CE credits.*

Anthony J. Lisi, DC is the Chiropractic Program Director for the Veterans Health Administration. In this role he oversees all national aspects of chiropractic care in the largest integrated healthcare system in the United States. He is also an Associate Research Scientist at the Yale Center for Medical Informatics, Yale University School of Medicine, and has published numerous papers on topics including low back pain management, spinal manipulation, interprofessional education, and chiropractic services. He is a senior member of the Clinical Practice Guidelines Development Committee of the North American Spine Society, and serves on other national committees related to chiropractic care and healthcare quality. Dr. Lisi received the American Chiropractic Association's 2015 Academician of the Year award, and the 2017 Chiropractor of the Year award.

Establishing Trust with Patients through Professional Marketing

Siouxsie Jennett

Sponsored by Mambo Media

Saturday • 8:30 - 10:30 am

How do you build trust with patients in the digital world? Today's communication methods are mostly digital and it's often difficult to establish a trusting relationship with your patients using tools like Twitter, Facebook or text, especially when regulations such as HIPAA limit what can be communicated. This workshop will explore what it means to establish real trust in the digital era, and how to do this consistently and effectively. We will study how informative content can help you build a long-term trusting relationship with your current and prospective patients, and how to choose the right content for the right channel. You will leave this workshop with a checklist of things you can do right away to improve and deepen patient engagement through the tools you're already using, and how those tools can be used to educate your patients. **2 CEs**

Siouxsie Jennett is an award-winning 25-year Internet industry veteran and the president and founder of Portland-based Mambo Media, a digital marketing firm that works with organizations globally to implement modern marketing programs that increase brand awareness, lead generation, online conversions and e-commerce sales. Siouxsie and her team build highly-effective marketing strategies that drive revenue through digital channels including social media, search, email, website development and marketing automation. She is an instructor at the Center for Executive Professional Education in the School of Business at Portland State University and sits on the Board of Directors for Doernbecher Children's Hospital. Regional clients include Grand Central Bakery, ESCO, Burgerville, PuppetLabs, OHSU, and Knowledge Universe.

Chiropractic Exponentially: Building the Practice and Profession of the Future

Jay Greenstein, DC, CKTP, CGFI

Sponsored by Infinedi

Saturday • 11:00am - 1:00pm

In this session, Dr. Greenstein will review the clinical implications of big data and analytics, building a knowledge base on how data is being used to understand value creation in today's healthcare system. Attendees will learn how new technologies such as artificial intelligence, machine learning, and deep learning are being applied in the clinical setting to improve outcomes and lower costs, and how the Internet of Things (IoT) and cloud computing are improving patient care delivery and how emerging wearable technologies and telehealth are driving improved diagnostic and therapeutic capabilities. Dr. Greenstein will also review the disruptive technology of blockchain. Learn blockchain basics as it relates to electronic health records, documentation, data security, and disrupting third party intermediaries in order to create greater value for patients and the healthcare system. **2 CEs**

Dr. Greenstein is the CEO of Kaizenovation® Tech. He has professional board positions at the state level as the President of the East Coast Associations' Independent Physician Network, the national level as Chair for the Council for Chiropractic Guidelines and Practice Parameters (CCGPP) and at the international level as Chair of the World Olympic Scholarship commission for the Federation of International Chiropractic Sport (FICS). Dr. Greenstein was Chiropractor of the Year for both the Maryland and Virginia Chiropractic Association's in 2010 and won the Smart CEO Volt Award for Technology Implementer for the small business category. He was recently selected to the state of Maryland's Governor's Office of Health Care Reform to serve on the Essential Health Benefits Committee. Dr. Greenstein sits on multiple community and business advisory boards in healthcare, banking and information technology.

Making Compliance and Profitability Work Together

Douglas Luther, DC

Saturday • 11:00am - 1:00pm

From day one, many providers get their practice compliance advice through the "chiropractic grapevine" of fellow colleagues eventually becoming lulled into complacency thinking they are immune from prosecution. Meanwhile, the Federal government makes \$8 for every \$1 invested into audits and fraud prosecution. Insurance companies know this as well and leverage compliance issues to their own advantage. Learn how to make the law work to your advantage, not the Insurance companies! Some simple changes to your office paperwork and procedures can protect you and save you a lot of money. Practice smarter not harder. Some of the topics covered but are not limited to are

Dual fee schedules and Washington Law, UCR fee determination for CPT codes, anti-kickback violations, Medical necessity and CMS, OIG protections, ERISA mandates for claim adjudication, Recovery audit contractors, audit prevention and defense. **2 CEs**

Dr. Luther is a Western States graduate and has been practicing for nineteen years. Ten years ago after undergoing a huge audit with an equally huge payback, he took it upon himself to never let that happen again, and became a certified medical compliance specialist. What he found was that chiropractors are a lot more powerful than we believe and a compliant office is a more profitable office.

F4CP Conference Luncheon

Sherry McAllister, DC

Sponsored by F4CP

Saturday • 1:00 - 2:30pm

Did you know that WSCA members automatically have joint membership with the Foundation for Chiropractic Progress? Come join F4CP Executive Vice President, Dr. Sherry McAllister, as she introduces you to the Foundation and the amazing work it's doing on behalf of the entire profession! **1.5 CEs**

Dr. Sherry McAllister has been in practice since 1996. She is a graduate of Palmer West College of Chiropractic, the University of Calgary with a BS in Cellular, Molecular, and Microbial Biology and California State University with a Masters of Science degree in Education. Dr. McAllister has been a Qualified Medical Examiner and Expert Chiropractic Witness for the State of California. In addition to her practice, Dr. McAllister serves as the executive vice president of the Foundation for Chiropractic Progress and is actively advancing the chiropractic profession through her leadership on the benefits of chiropractic. She continues to be active with Palmer College as their Alumni Ambassador inspiring others to be active and share their passion for chiropractic. She has served her profession through her contributions and consulting with such groups as the Federation Chiropractic Licensing Board and National Board of Chiropractic Examiner. She has been a faculty member for Palmer Continuing Education, Associate Professor at Palmer West College of Chiropractic, a lecturer of Holistic Health Care at West Valley College and an expert witness for the California Chiropractic State Board.

The Impact of Concussion on the Gut-Brain Axis

Robert Silverman, DC, DACBN, DCBCN

Sponsored by Biotics Research NW

Saturday • 2:30 - 4:30pm (Part I)

Saturday • 5:00pm - 7:00pm (Part II)

Concussions and the related gut-brain axis are the most hotly-debated topics in sports medicine today. Research surrounding concussions and the gut-brain axis has experienced significant growth recently in the areas of incidence, assessment and recovery. However, the jury is still out as far as the most effective protocols go. The importance of utilizing clinically relevant testing to quickly identify the cause of the patient's condition, and why quality supplements are important for correcting the condition will be presented. Dr. Silverman will show you the breakthrough in concussion treatments, including testings/assessments, exercise/cognitive rehab, nutrition protocols, and laser therapy for enhanced clinical outcome. **4 CEs**

Dr. Robert G. Silverman is a chiropractic doctor, clinical nutritionist and author of "Inside-Out Health: A Revolutionary Approach to Your Body," an Amazon No. 1 bestseller in 2016. The ACA Sports Council named Dr. Silverman "Sports Chiropractor of the Year" in 2015. He maintains a busy private practice as founder of Westchester Integrative Health Center, which specializes in the treatment of joint pain using functional nutrition along with cutting-edge, science-based, nonsurgical approaches. He is also on the advisory board for the Functional Medicine University and is a seasoned health and wellness expert on both the speaking circuits and within the media. He has appeared on FOX News Channel, FOX, NBC, CBS, CW affiliates as well as in the *The Wall Street Journal* and *NewsMax*, to name a few. He was invited as a guest speaker on "Talks at Google" to discuss his current book.

Experiences. Not Things.

Nathan Unruh, DC

Sponsored by Sidecar

Saturday • 2:30 - 4:30pm

Now more than ever, chiropractors, like nearly every other segment of the economy, are in the experience business. After all, what is more human than healing touch? What is more life enriching than the experience of feeling better? Dr. Nathan Unruh describes how the chiropractic profession is well-positioned to thrive in what's called the Experience Economy. We operate in a highly competitive healthcare marketplace, with lowered reimbursements, higher levels of risk, and an aging population. Differentiate yourself through experiences. That's where you will thrive. It's about experiences. Not things. This program incorporates research from Gallup and NCMIC showing patient perceptions of chiropractic, risk management statistics, and how chiropractors can use that data to better manage their patients' cases. **2 CEs**

As the Chief Experience Officer at SIDECAR, Dr. Nathan Unruh has inspired and educated hundreds of chiropractic business owners. He is also the Director of Chiropractic at Envide where he manages multiple locations that serve thousands of patients each month. Finally, he's the author of five books, including "Digit," "Chrome," and "Strike It!". When he's not working hard to help patients and colleagues, he's spending time with his wife Sara and their three children, Gabrielle, Lincoln, and Alexa. He's also an avid golfer, sports fan, reader, and writer.

Medical Necessity and the Importance of the 24th Chiropractic Principle

John Davila, DC

Sponsored by ChiroPreferred

Saturday • 5:00 - 7:00pm

Before you can even put a pen to paper or touch a keyboard in order to enter a note into an EMR system, you first need to know where the patient is on the graph of "percent improvement." This program will cover the 24th chiropractic principle and why it is so important when you move the patient from active care to wellness care. **2 CEs**

Dr. Davila is a 1994 graduate of Palmer College of Chiropractic in Davenport, Iowa. After graduating, he established three successful practices in the Myrtle Beach, South Carolina area, which he operated for 13 years. Since 2000, Dr. Davila has been training doctors and staff on federal and state level insurance compliance and has consulted for several major medical carriers. In 2001, he re-wrote the Medicare policy for chiropractic reimbursement for Palmetto GBA and served on their Physician Carrier Advisory Committee. Dr. Davila currently operates his own consulting company, Custom ChiroSolutions, offering chiropractors individualized service and training on the same topics he has become a recognized expert on.
