

One Process, One Way

Receive automated electronic payments and reconciliation data directly from brokerages, the same way every day.

Would you like to:

- ... accelerate the conversion of your brokers to electric payments for monthly payables and out of cycle payments ... with ZERO extra work?
- ... receive reconciliation reports from all brokerages in the same format every time and with every payment?
- ... take all of the guesswork out of predicting incoming broker cash flows?

Save Time

Save Money

More Secure

Feature:

Payments always have data associated in a standard format

Notification of pending payments

Dashboard view of payments

Benefit:

Reduce time required for reconciliation and reduce unnecessary communication with brokerages

Pending payments are post dated electronic payments that cannot be altered by brokerage, allowing earlier reconciliation.

Supports better cash flow forecasting and automated payment recording for audit.
