PRESIDENT'S MESSAGE

Sylvain Fournier, chairman of the board

A Great Communicator Serving the People and Our Industry

Senator Plett is known for his sense of humour. Upon arriving at Parliament Buildings, he indicated the way to his office where we could have a glass of wine or a beer while waiting for him. I'm already smiling thinking that he is in seduction mode and his sense of humour is already present. At his office, his team is there, receiving us like royalty with a table covered of beverages including wine and beer. It was not a joke then likely some form of income tax return!

A great communicator, we followed him around Parliament and were mesmerized by his colourful anecdotes. When you can find a plunger with a red bow in his office, you get a sense of the measure of the man.

Senator Plett is passionate, attuned to the needs of those he serves. It is with pride and determination that he informed us of the evolution of prompt payments which is a major issue in our sector. We were all charmed by his life's journey, his family values and his dedication to his work.

Sylvain Fournier

Claude Robitaille regional coordinator, Bernard Deslauriers (Boone), Senator Don Plett with his wife Betty, Sylvain Fournier (Moen) Chairman of the board.

OUTSTANDING CONFERENCE AT CHÂTEAU LAURIER

Thanks to the exceptional involvement of Bernard Deslauriers (Boone), 55 members were in Ottawa on April 14th to attend Senator Don Plett's talk. They were all under the charm of this excellent speaker who stressed his involvement in the late payment issue in the construction industry, and notably plumbing, since he grew up in the industry before accepting a seat in the Senate. During the evening, we took the opportunity to honour three Wolseley employees for their 40 years of service in the sector.

Members have appreciated their tour at the Parliament hill

40 YEARS IN THE INDUSTRY

Charles Lagassé from Wolseley took the opportunity to honour 40 years of service, John Abraham, Terry Hutcheon, Brien Mullen, our chairman of the board Sylvain Fournier and Senator Don Plett

HYDRONICS

Our association is contemplating the creation of a committee to bring together the manufacturers, agents, wholesalers and distributors in this area. The goals of the committee would be to promote hydronics, oversee training and inform the general public of this heating system. We will keep you up to date in coming newsletters.

NEXT EVENT MAY 12th

Our annual general assembly will be held at Gibby's restaurant in Old Montréal. This event will close our year.

See you there!

One tip to another

Nominations at William Scott

President Peter Scott is pleased to announce the nomination of Philippe Chartier to the position of representative for the company. He will cover Eastern Montréal, the South Shore, the Montérégie, the Townships and Central Québec.
