

**CIPH to Sponsor 15th Habitat for Humanity Home Build in Stoney Creek, Ontario**  
***Now seeking Member Donations and Industry Participation***

The Canadian Institute of Plumbing & Heating (CIPH) is proud to announce that it will be sponsoring its 15th Habitat for Humanity home in Stoney Creek, Ontario. This Habitat for Humanity Hamilton project located at 19 Dawson Avenue in Stoney Creek is an ambitious 10 unit stacked townhouse development that will take a ground-breaking approach to helping families build equity and provide safe and affordable housing.

Construction on this project is set to begin in summer 2025 and is expected to be completed in 2026.

This marks another milestone in CIPH's long-standing, 31-year commitment to supporting Habitat for Humanity Canada. To-date, CIPH Members have donated over \$18 million in cash and product to help support Canadians with safe, healthy, and affordable housing.

As part of the initiative to support our communities, CIPH is issuing an open call to its members to support this new build in Stoney Creek, Ontario. These contributions are intended to help provide materials, and other resources necessary to build the home.

In addition to donations, companies are encouraged to take part in the construction of the homes by hosting a *Habitat Team Build Day* on the construction site. This is a fantastic opportunity for businesses to engage in meaningful community outreach and hands-on involvement.

“We invite all CIPH members to participate and show their support, through donations and/or time to volunteer for this life-changing project in Stoney Creek, Ontario,” said François Deschênes (Groupe Deschênes) and Lindsay Barber (Masco Canada), Co-Chairs of CIPH's Charity Committee.

For more information on how you or your company can get involved in this incredible project, please reach out to Nancy Barden, CIPH's Director Member Services at [n.barden@ciph.com](mailto:n.barden@ciph.com).
