

# NTI Boilers Inc. introduces...

## NTI S20W High Performance Wall-Mounted Indirect Water Heater

The NTI S20W is a 20-gallon wall-mounted high performance indirect water heater that packs a powerful punch for a small tank, with recovery rates comparable to many 65 gallon indirect tanks. It comes in a high-quality metal jacket to match NTI units but can be paired with any boiler.

**Product Category:** Hydronic Heating

**Date Product was introduced to the Canadian Market:** August 2021

**Is this product CSA (or equivalent) approved?** Yes

**What is innovation or amazing about this product?** A new kind of tank that can make any boiler be a combi. This small wall-mounted indirect water heater will save space, but not compromise on hot water.

**This product is:** Water Efficient
