

Riobel introduces...

Riobel Ode™ collection

The balance of profile, proportion, and performance: this is the equation that defines the Ode™ Collection. The geometric meeting of circle and square is calculated to equal measurements, forming a design with the look of modernist art. A round base merges with a rectangular spout, for a seamless form. Light and shadow on curve and line create subtle reflections. The whole is juxtaposed by the angled handle.

Product Category: Kitchen and Bath

Date Product was introduced to the Canadian Market: September 2021

Is this product CSA (or equivalent) approved? Yes

What is innovation or amazing about this product? The Ode™ collection is inclusive of faucets, shower systems and pairs well with Paradox coordinating accessories. The Ode™ Collection is a seamless sculptural shape of line and circle, where form and function meet, representing the core of the brand and what it stands for.

This product is: Water Efficient
