Top Ten Clinical Research Achievement Awards Finalists

Hematopoietic Stem Cell Transplantation for Frequently Relapsing Multiple Sclerosis
Richard Burt, Northwestern University Feinberg School of Medicine

Associations of Dietary Cholesterol or Egg Consumption with Incident Cardiovascular Disease and Mortality
Norrina Allen, Northwestern University Feinberg School of Medicine

Adjuvant Chemotherapy plus Radiation for Locally Advanced Endometrial Cancer
Daniela Matei, Northwestern University Feinberg School of Medicine

Skin-like Devices for Wireless Monitoring of Vital Signs in Neonatal Intensive Care
John Rogers, Northwestern University

Breakthrough Discovery and Development of Innovative Precision-Based Therapy in Complex Lymphatic Anomalies
Hakon Hakonarson, Perelman School of Medicine at the University of Pennsylvania

**Systolic Blood Pressure Intervention Trial (SPRINT) MIND Study**

Jeff Williamson, Wake Forest School of Medicine

**A Phase I evaluation of chimeric antigen receptor-modified T cells targeting B cell maturation antigen (BCMA) in patients with relapsed/refractory multiple myeloma**

Michael Milone, Perelman School of Medicine at the University of Pennsylvania

**Association of midlife to late-life blood pressure patterns with incident dementia**

Keenan Walker, Johns Hopkins University School of Medicine

**Tesamorelin as a Novel Hormonal Strategy to Treat Nonalcoholic Fatty Liver Disease**

Steven Grinspoon, Massachusetts General Hospital/Harvard Medical School

**Development of CAR T-Cell Therapy for Myeloma**

James Kochenderfer, Center for Cancer Research, National Cancer Institute

**Surgical vs. Conservative Management of Cerebellar Intracerebral Hemorrhage**

Alessandro Biffi, Massachusetts General Hospital

**Hidden consciousness following acute brain injury**

Jan Claassen, Columbia University Irving Medical Center

**Genomic Mismatch at LIMS1 Locus and Kidney Allograft Rejection**

Krzysztof Kiryluk, Columbia University Irving Medical Center

A041202: A Randomized Phase III Study of Bendamustine Plus Rituximab Versus Ibrutinib Plus Rituximab Versus Ibrutinib Alone in Untreated Older Patients (65 Years of Age) with Chronic Lymphocytic Leukemia (CLL)

Jennifer Woyach, The Ohio State University

Journal Citation: *N Engl J Med, 379 (26), 2517-2528 2018 Dec 27

**Long-term sublingual immunotherapy for peanut allergy in children: Clinical and immunologic evidence of desensitization**

Edwin Kim, University of North Carolina at Chapel Hill

Prevention of Sudden Cardiac Death in High-Risk Patients with Hypertrophic Cardiomyopathy

Marton Maron, Tufts Medical Center

Canagliflozin and Renal Outcomes in Type 2 Diabetes and Nephropathy

Stanford Medicine, Kenneth W. Mahaffey

Large-Scale Assessment of a Smartwatch to Identify Atrial Fibrillation

Marco V. Perez, Stanford University School of Medicine

Building a Better Vaccine against Severe Respiratory Illness

Barney Graham, Vaccine Research Center, National Institutes of Health

Sustained outcomes in oral immunotherapy for peanut allergy (POISED study): a large, randomized, double-blind, placebo-controlled, phase 2 study

Rebecca Sharon Chinthrajah, Stanford University School of Medicine
