1. Introduction

This updated report is based on data obtained from the Society for Cinema and Media Studies website as submitted by the current membership as of the dates listed in the charts below.

Sections 2 through 5 detail information about the general membership, including membership by nationality, place of residence (country and state), job title, and gender. Sections 6 and 7 detail information about individual members' teaching and the number of undergraduate and graduate students in their departments or programs. While data on membership by nationality and job title is based on categories determined by the SCMS website (such as "International Member" or "Associate Professor"), data on gender, teaching, and types of students in members' respective departments/programs is reported by a percentage of current members.

The 2011-2012 Membership Profile was initially compiled by Christina Petersen, SCMS Researcher, in March 2012.

This updated profile was compiled by Aviva Dove-Viebahn, SCMS Website Content Manager, in November 2015 and encompasses membership years 2012-2013, 2013-2014, and 2014-2015.
