The 2021 CASE Winter Leadership Conference will take place both in-person (with a very limited capacity) and virtually. Here are some measures CASE is taking to keep our in-person attendees safe.

**SANITIZING STATIONS**
CASE will disperse hand sanitizer and set up hand sanitizing stations throughout the venue. Attendees are encouraged to sanitize and wash hands frequently during every day of the event. Commonly touched surfaces will also be kept sanitized by hotel staff, in accordance with CDC standards.

**MASKS REQUIRED**
All attendees, vendors and staff at the conference are required to wear face masks during the entirety of the conference, unless actively eating or drinking. Masks must be worn at any CASE Conference event.

**DISTANCED SESSIONS**
All sessions will be set up in a way to facilitate small group clusters and distancing of at least six feet between small groups. There will also be a cap of 25 percent capacity per room.

**TEMPERATURE CHECKS**
Attendees’ temperatures will be taken prior to conference entrance every day of the event. Attendees with temperatures over 99.0 will not be permitted entry.

**IF YOU’RE SICK, STAY HOME**
Any registered attendees who are sick are asked to please stay home.
