Your guide to associate membership— Colorado Bankers Association

The Colorado Bankers Association represents more than 95 percent of the \$146 billion in assets within the 131 banks operating in Colorado. On behalf of the 21,172 men and women who work within a regulated, traditional Colorado bank, CBA works with government to continually improve the banking industry in this rapidly changing environment. CBA focuses on improvements that increase benefits for customers, value for shareholders, and a stronger business climate for our local economies. CBA also provides industry-specific information and education to bankers, offers bank insurance, acts as a partner between bankers and servicers and provides other miscellaneous services. CBA focuses on creating a stronger economy and helping Coloradans realize dreams by building better banks.

Utilize our niche and maximize your reach to bankers throughout the state. CBA is the banking industry – bankers rely on us, and you can too. WHAT OUR MEMBERS SAY:

“The CBA has been a valuable resource throughout my years of membership. As an attorney, much of my practice focuses on providing legal services to clients in the financial services industry. Because the CBA represents a significant number of existing Colorado banks, membership has provided me with the opportunity to develop relationships with those member banks and learn first-hand of their needs and concerns. I have also attended numerous CBA conferences and have found them to be sources of substantive information and very helpful in keeping up with industry practice trends.”
