Captain Fred Monroe

Synopsis of Course:

Basic Life Support (BLS) Provider CPR for the Healthcare Provider

Sudden cardiac arrest remains a leading cause of death in the United States. BLS is the foundation for saving lives after cardiac arrest. Fundamental aspects of adult BLS include immediate recognition of sudden cardiac arrest and activation of the emergency response system, early CPR, and rapid defibrillation with an automated external defibrillator (AED). Initial recognition and response to heart attacks is crucial parts of BLS and imperative in the Chain of Survival.

- Learn the importance of Scene Safety
- Learn the importance of high-quality CPR and its impact on survival
- Know the steps of the Chain of Survival and apply the BLS concepts of the Chain of Survival
- Recognize the signs of someone needing CPR
- Learn how to perform high-quality CPR for adults, children and infants
- Learn the importance of early use of an AED
- Learn the use of effective ventilations by using a barrier device
- Learn the importance of 2-person CPR
- Learn the technique for relief of foreign-body airway obstruction (choking) for adults, children and infants
- Learn and know, that you can make a difference.

NOTICE: To fulfill the CE requirements of the Colorado Board of Chiropractic Examiners established via Rule 8, you must:

1. Obtain 15 CE hours per year (November 1 - October 31) for a total of 30 every two-year license renewal period. These hours must meet the educational requirements as outlined by the board. Subjects of a clinical nature are generally approved, while subjects such as practice management, managed care, financial management, or personal motivation do NOT qualify.
2. Maintain records of seminar attendance in your files including:
 - The title, date and hours of the course
 - Verification of CE hours attended
 - A synopsis of the course
 - The qualifications of the instructor
3. The board will perform audits to insure CE compliance.

Please contact the CCA for additional information.
