### Synopsis of Course:

Are you the BEST chiropractor you can be?? The more tools you have in your tool box the better for your patients, your pocketbook, and your piece of mind!!

Come enjoy 12 hours of hands on adjusting, rehab and soft tissue and experience a new perspective on chiropractic care that you can apply Monday morning and help your patients get and STAY better longer! This seminar is FULL of effective patient education and LOTS of hands on fun!! Dr. Michelle Wendling DC brings you a deeper understanding of the biomechanics of the WHOLE body, including improving adjusting skills, awareness of when and where to adjust, muscle joint relationships, posture component, muscle balance and how these relate to symptom presentation.

The seminar will cover

- Basic anatomy
- Correctable postural distortions
- Complete assessment and a variety of adjustments for each area
- Easy homework exercises so your patients GET and STAY better
- Valuable patient education to help them understand how your care helps them

Some focused areas include the 3 cores of the body, knees, feet, TMJ, shoulder dysfunctions (frozen and rot cuff), TOS, headaches, soft tissue to permanently eliminate elbow pain, and keys to muscle balance restoration.

This seminar is designed to ENHANCE your current practice so the subjects covered may vary based on your questions so bring your tough cases!!
