

CONFERENCE OF RADIATION CONTROL PROGRAM DIRECTORS, INC.

RESOLUTION

Relating to: Minimum Standards for Persons Who Administer Radiologic Procedures

WHEREAS: The Consumer- Patient Radiation Health and Safety Act of 1981 established minimum standards for state certification and licensure of personnel who provide radiologic services, and

WHEREAS: The adoption of these standards was rendered discretionary with each state, and there are no sanctions for noncompliance, and

WHEREAS: Seventeen states have not adopted such standards, and

WHEREAS: The lack of uniform standards nationwide for operators of radiologic equipment poses a hazard to the public and jeopardizes quality health care, and

WHEREAS: The Conference of Radiation Control Program Directors (CRCPD) is a Partnership dedicated to promote consistency in addressing and resolving radiation protection issues, to encourage high standards of quality in radiation protection programs, and to provide leadership in radiation safety and education, and

WHEREAS: The American Society of Radiologic Technologist's (ASRT) supports initiatives designed to protect patients and ensure the safety and diagnostic quality of radiologic examinations, and

WHEREAS: The CRCPD works with the ASRT.

NOW BE IT RESOLVED THAT:

The Conference of Radiation Control Program Directors, supports effort
for the establishment and retention of standards to demonstrate
competence by reason of education and experience for persons who administer
radiologic procedures.

Jill Lapoti
CRCPD Chairperson

Approved by the CRCPD Membership May 20, 1998
