Charges:

1. By May 1, 2015 survey states to determine what is currently being regulated and inspected with regards to proton therapy.
2. By December 1, 2015 write a “white paper” x-ray inspectors may use as guidance during the routine inspection of proton therapy facilities.
 - The suggested protocol(s) should address any specific paper work that should be reviewed including but not limited to quality assurance protocols and documentation, physicist credentials, operator training, operating and emergency procedures. Consideration may also be given to specific measurement protocols that may be undertaken as part of the inspection process by the state inspector. The protocol may include additional information useful for inspection purposed but not directly related to the inspection process.

Note: When a Letter/Number combination appear in brackets after a charge, it denotes how the charge links to CRCPD's Goals and Objectives, as listed in [CRCPD's Strategic Plan](#).
